GERARD

Refuses to Confirm or Deny Report That He Bears Peace Message

RECEPTION IN NEW YORK

Ships and Tugs In River Give Noisy Greeting to U. S. Ambassador Returning From Berlin—Mrs. Gerard Says American Women In Berlin Do Great Relief Work

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 10.—James W. Gerard, American ambassador to Germany, upon his arrival here today declined either to affirm or deny published reports that he was returning to the United States on a peace mission on behalf of the emperor of Germany. Mr. Gerard's attention was called to a story which appeared this morning in the World to the effect that his errand was to inform the administration that a renewal of submarine activity is being considered by Germany in a manner which might threaten German-American relations. Mr. Gerard, after quickly glancing through this story said:
"You don't see me quoted anywhere in it, do you?" To questions put to the ambassador by reporters who met him at Quarantine, he replied:
"It is useless to question me, boys. I cannot say a word. The length of my stay here is not yet determined; neither have I made any plans," he added. "I expect to go to Washington, but when I do not know. I am glad to be home though."
Mrs. Gerard who accompanied the ambassador, was presented with a large bouquet of American beauty roses as she came aboard the patrol. She will go to Montana to visit her mother.
Mrs. Gerard has been credited with taking a leading part in war relief in Germany. Asked as to this work, she disclaimed any personal credit, saying that all American women in Germany have done "magnificent work." Mr. Gerard said in response to a question that there are about 3,000 Americans in Germany at this time, of whom about 700 are in Berlin.
Mayor's reception committee, headed by Oscar Strauss, greeted the returning ambassador on the Frederick VIII before the party went aboard the patrol. On the way up the harbor and as the patrol came into dock, ships and tugs in the river greeted it with tooting of whistles. A reception to the ambassador is to be held in the city hall later.

GERMANY CORRALLS RUMANIANS IN CIVILIAN CAMPS

(ASSOCIATED PRESS TELEGRAM)
Berlin, Oct. 9.—Via London.—British interned civilians now have as companions in misery Rumanians residing in Germany whom the German government is placing in concentration camps. Rumanians agreed at the outbreak of hostilities not to intern Germans but later interned them as "a temporary measure of safety."
As the United States is entrusted with both Rumanian and German interests, this development entails a great amount of work by the American embassy. For several days Rumanians affected by the new order have been crowding the building occupied by the embassy.

NEWSPAPER

IN BERLIN SUPPRESSED FOR INTERFERING IN FOREIGN AFFAIRS.

In Article Proposing Reichstag Committee on Foreign Affairs It Attacks German Chancellor.

(ASSOCIATED PRESS TELEGRAM)
Amsterdam, Oct. 9.—Via London, Oct. 10.—The Berlin Vorwaerts incurred the most recent order for its suppression by advocating the appointment of a Reichstag committee for foreign affairs, according to Berlin dispatches received here.
In a leading article in Sunday's issue, the Vorwaerts took up a request from several political quarters for the establishment of such a committee. The article recalled the attempt by the Reichstag members of the Reichstag in 1908 to pass a measure which would have required the government to submit its foreign policy to the parliamentary majority. The debate on this proposal caused a widespread agitation throughout Germany.
Commenting on the present proposal the Vorwaerts said that if it was adopted the antagonists of Chancellor von Bethmann-Hollweg would have an opportunity to ask for his dismissal. It added that the vote would show what the Reichstag thinks of Germany's war aims. The article concludes this again proves the necessity of Germany having a system of parliamentary government.

CARGOES IN PORT WORTH \$14,000,000; SHIPS WON'T SAIL

(ASSOCIATED PRESS TELEGRAM)
Philadelphia, Oct. 10.—No vessels flying foreign flags have cleared from this port since the reports of German submarine activity off the New England coast reached here on Sunday. The local British consul has refused ships articles to masters who wished to sail while the agents for lines under the British are understood to be on their way reach the waters outside the Delaware breakwater.
Seventeen British, French, Italian and Japanese vessels are docked here and shipping men estimate that cargoes valued at \$14,000,000 are tied up here.

PEACE

Mission of Gerard Is Denied at Summer Home of President

LANSING SEES MR. WILSON

Facts Regarding Submarine Raid Gathered By Navy Department Are Carefully Considered By the President—Cancels Baseball Engagement to Give Attention to Foreign Affairs

(ASSOCIATED PRESS TELEGRAM)
Long Branch, N. J., Oct. 10.—President Wilson gave his entire attention today to considering facts collected by the navy department regarding German submarine attacks on merchantmen off the American coast. He had intended going to Brooklyn for the third baseball game of the world's series but changed his plans to devote himself to the foreign affairs of the nation.
The President shut himself in his study this morning and went carefully over all the evidence collected so far. While this evidence was not given out, there was every indication that the President has received no information necessitating drastic action by the American government.
The President had on his program today conferences with Secretary Lansing and Jules Jusserand, French ambassador to the United States. Ambassador Jusserand has a personal letter from President Poincare of France for Mr. Wilson on Polish relief, but it was expected that the new German submarine activities would be discussed. It was not believed that the American government would take any action on developments to date in the renewal of German submarine activities but serious consideration was given as to whether attacks on merchantmen so near the American coast do not constitute a virtual blockade of American ports.
James Gerard, American ambassador to Germany, who arrived in New York today from Germany is not expected to see President Wilson until next week.
It was stated authoritatively that Mr. Gerard does not come on any peace mission and that his trip has no connection with submarine warfare but that he is simply on a vacation.
President Wilson plans to leave Shadow Lawn tomorrow afternoon for Indianapolis where he will speak twice Thursday afternoon.

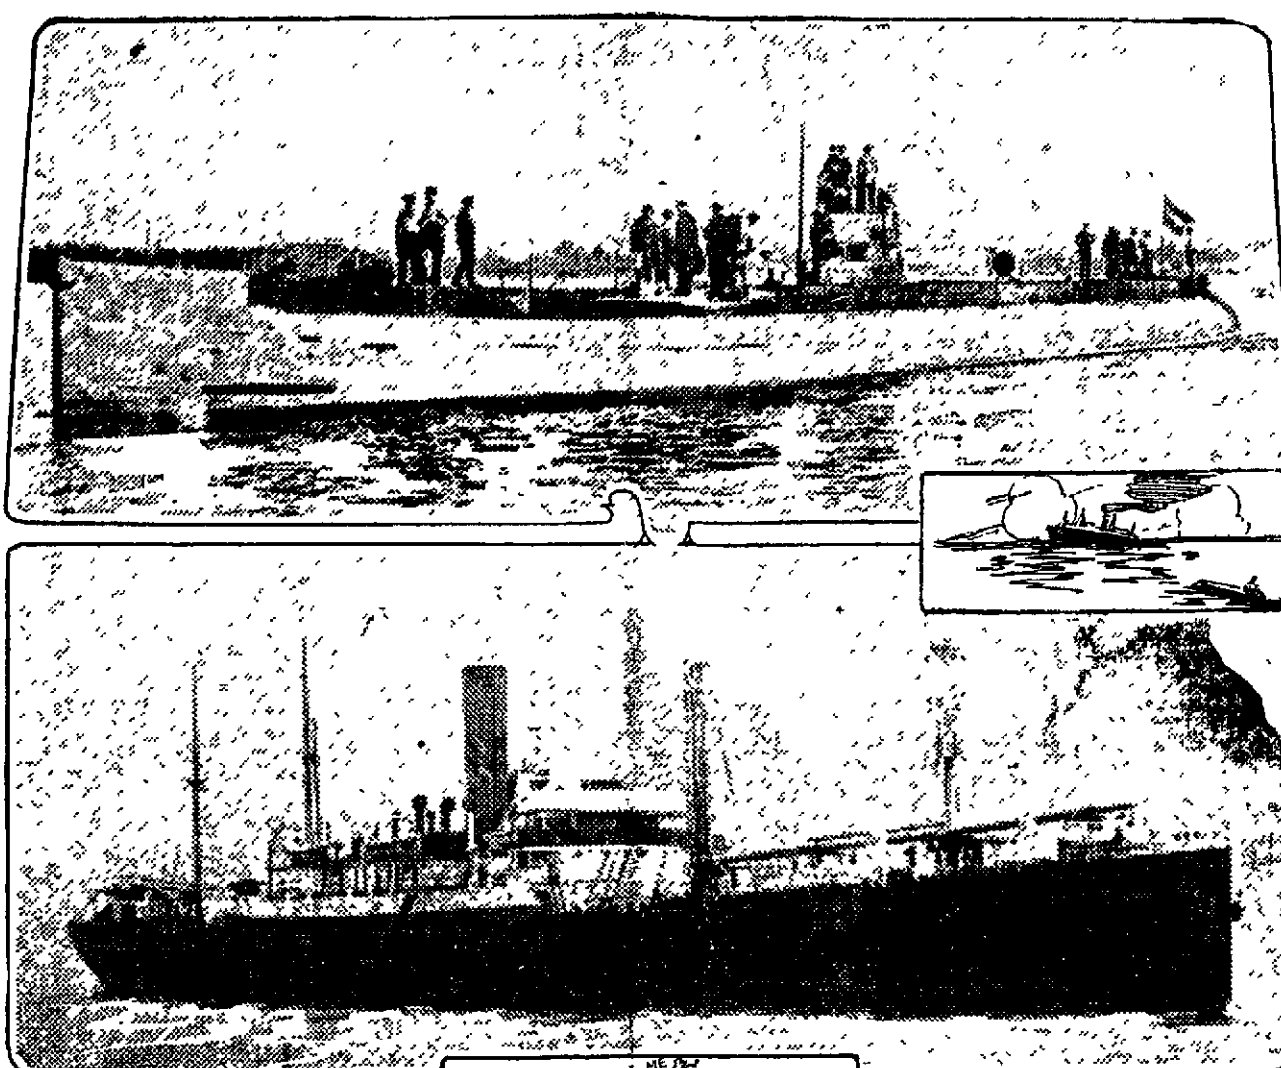

COURT HOLDS OWNERS MUST CLEAN WALKS

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Oct. 10.—Supreme court today upheld the Hamilton county court of appeals in which it was held in the case of Matilda Steinbeck against the John Hauck Brewing company that abutting property owners are not liable for damages where a person sustains injury by falling on an icy sidewalk in front of their property. Municipalities are bound to keep the streets and sidewalks in safe condition and may prosecute abutting owners to compel them to remove snow and ice from the sidewalk it was held, in this case, but the property owner is not liable for damage if injury is sustained by falling on the sidewalk.
By refusing to review the case of the Commonwealth Construction company of Pittsburgh against the Pollinger-Andrews Construction Co., from Columbia county the supreme court today sustained the lower court finding that a mechanic lien applies on work finished in Ohio which was started in another state.
The supreme court sustained a motion to advance for hearing the case of P. Fassin against the state, involving the constitutionality of the workmen's compensation law and consented to hear a Henry county case involving the question as to whether liquor stored in a warehouse in dry territory is liable to the assessment of the state liquor tax. The treasurer of Henry county assessed the Christ Diehl Brewing company for the \$1,000 annual tax and the latter is contesting payment.

CARGOES IN PORT WORTH \$14,000,000; SHIPS WON'T SAIL

(ASSOCIATED PRESS TELEGRAM)
Philadelphia, Oct. 10.—No vessels flying foreign flags have cleared from this port since the reports of German submarine activity off the New England coast reached here on Sunday. Seventeen British, French, Italian and Japanese vessels are docked here and shipping men estimate that cargoes valued at \$14,000,000 are tied up here.

U-53 WILL GIVE US PICNIC, DECLARES NAVAL EXPERT

German submarine of U-53 type; British steamer Strathdene; map showing where submarine made raid on British commerce off Massachusetts coast.

The operations of the German submarine U-53 has brought the European war to the very doors of the United States. Terror has seized shipping circles from Maine to Florida.

Capt. Hans Rose, who brought the armed submarine across the Atlantic, said on his arrival at Newport that his vessel needed no supplies, and in fact carried provisions and fuel for three months' cruising. If still other submarines of this character are brought to this side of the Atlantic it is believed that great interference to the shipment of munitions will result.

The British steamer Strathdene was one of the U-53's victims.

Coombs Calls for Relief in 7th; Brooklyn Wins 4 to 3

(ASSOCIATED PRESS TELEGRAM)
Ebbets Field, Brooklyn, Oct. 10.—To turn the tide that has been carrying them away from the baseball championship, the Brooklyn Nationals, staggering from two defeats at the hands of the Boston Americans, made a back-to-the-wall fight today in their first contest on the home field. A defeat for Brooklyn today would leave their championship hopes hanging by a hair. As it now stands Brooklyn must win four out of the remaining five contests to win the world's series, while the Red Sox need but two more victories to place them on the championship pinnacle.

Brooklyn saw its first world's series game in its own borough today. Heretofore it has had to cross the bridge and watch the New York Giants perform in all the important series. Keen for the taste of the big baseball event that makes or un-makes a champion, hundreds came out early to the park and sat for hours shivering in the arctic wind that swept the playing field. Scores of spectators muffled themselves in sweaters and newspapers to keep out the biting edges of the north wind. The sun shone clear and bright but it was a poor day for a ball game. The players themselves hugged the warm rooms of the club house until the last moment.

The temporary bleachers erected behind left and center field, were the first to fill up, while the box holders secure in their seats waited until near game time before coming to the park. Double sets of temporary boxes had been erected in front of the left and right field grandstands. Apparently ground rules on over-throw and hits into the temporary outfield stands would be made. The usual brass band tried to keep warm and in tune down near the home bench.

The Brooklyn took their batting practice first.

The first excitement of the day came when the Boston Royal Rooters, about 500 strong, paraded around the field, led by a red-coated band playing the battle song.

of the fans "Tessie," The Boston Rooters occupied a reserved section back of the visitors playing bench off third base.

There was plenty of snap in the fielding practice notwithstanding the cold. Both Daubert and Merkle worked out at first an dit looked as though Robinson intended to use Merkle in case Dutch Leonard was named as the Red Sox twirler.

First Half—Hooper up, strike one, strike two, ball one, ball two, Hooper drove a foul ball over the right field wall. It was foul by a foot. Hooper flied out to Wheat. Janvrin up, ball one, Mowrey singled Janvrin's grounder with his left hand and threw him out. Shorten up, strike one, ball one, ball two, foul strike two, foul. Shorten singled past Cutshaw. Hoblitzel up, ball one, Hoblitzel singled to right and when Shorten tried to reach third he was thrown out. Stengel to Mowrey. No runs, two hits, no errors.

Last Half—Myers up. The home folks gave Myers a warm reception, remembering him as the Brooklyn hero of yesterday's game. Strike one, strike two, foul. Myers was hit by a pitched ball. Daubert up, ball one. Daubert bunted safely. Myers going to second. It was a superb bunt and neither Thomas nor Mays could get it in time to retire the runner. Stengel up. Stengel sacrificed, Mays to Hoblitzel. Myers going to third and Daubert to second. Wheat up. The Boston infield came in on the grass. Ball one, ball two, ball three, ball four. Wheat was purposely passed and the bases were filled. Cutshaw up. Cutshaw forced Myers. Hoblitzel to Thomas. Daubert went to third and Wheat to second on the play. Mowrey up, ball one, strike one, ball two, foul strike two, ball three, Mowrey fanned. No runs, one hit, no errors.

Second Inning

First Half—Lewis up, ball one, strike one, Lewis flied out to Myers. Gardner up, ball one. Gardner sent

up a high fly to Cutshaw. Scott up. Wheat made a circus catch of Scott's long fly taking the ball in deep left. No runs, no hits, no errors.

Last Half—Olson up, Scott threw out Olson at first. Miller up, strike one, foul strike two, Miller fanned on three pitched balls. Coombs up, ball one, Scott threw out Coombs. No runs, no hits, no errors.

Third Inning

First Half—Thomas up, strike one, ball one, ball two, foul strike two, Thomas popped to Cutshaw. Mays up, strike one, ball one, ball two, strike two, Mays could not see Coombs' curves and fanned. Hooper up, ball one, Janvrin up, ball one, Hooper was out stealing. Miller to Cutshaw. No runs, one hit, no errors.

Last Half—Myers up, strike one. Scott threw out Myers at first, after fumbling his grounder. Daubert up, foul strike one, ball one, strike two, foul, foul, foul. Daubert singled to right. Stengel up, foul strike one, ball one, Stengel singled to left. Daubert going to second. Wheat up, foul strike one. Wheat flied to Lewis. Cutshaw up, strike one, ball one, ball two, Daubert scored on Cutshaws single to right. Stengel went to third and Cutshaw went to second on the throw in. Mowrey up. Scott threw out Mowrey. One run, three hits no errors.

Fourth Inning

First Half—Janvrin up, foul strike one, Janvrin flied to Stengel. Shorten up, strike one, ball one, foul strike two. Shorten singled over Mowrey's head his second hit. Hoblitzel up, strike one. Shorten went out stealing. Miller to Olson, ball one, Hoblitzel flied out to Myers. No runs, one hit, no errors.

Last Half—Olson heat out a bunt and when Gardner threw wildly to first Olson went to second. Miller up, ball one, foul strike one, Miller sacrificed, Mays to Janvrin. Olson going to second on Page 2, Col. 2.)

ANOTHER

Blow by Allies in Somme Region Predicted by Artillery Action

FRENCH REOPEN BATTLE

Volhynia Battle Continues With Great Ferocity—Petrograd and Berlin Are Silent As to Developments—Serbians Successful In Macedonia—New Greek Cabinet is Neutral

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 10.—Increased activity south of the river Somme is reported by the French war office. For some time the main efforts of the French and British have been made north of the river but last night the artillery was unusually active on the front between Democourt and Libon. This may be the prelude to another blow below the river, in accordance with the French policy of swinging the attack back and forth from one side of the river to the other.
Although the great battle in Volhynia and Galicia apparently is continued with the same ferocity that has marked the fighting since the new Russian offensive began, Petrograd reports that nothing of importance has occurred. Berlin is almost equally uncommunicative and few details are permitted to reach the outside world of the campaign which represents the supreme efforts of the Russians this season to break the Austro-German line and capture Lemberg.
The Bulgarian war office acknowledges that Serbian troops have forced a passage of the Cerna river in Greek Macedonia. It says the Serbians were subjected to a counter attack and that the fighting continues. According to the French war office the Bulgarians counter attack failed and more Serbians are crossing the river.
Former Premier Venizelos of Greece and the other members of the provisional government set up in defiance of the King have gone to Saloniki where the Greek revolution began. Professor Lambros has succeeded in forming a ministry which will be sworn in today, according to unofficial advices from Athens. The new ministry is colorless politically and there are no indications of any immediate departure from Greece's policy of neutrality.

Shipments to European destinations checked by High Rates On War Risks—Talk of Railroad Embargo to Prevent Congestion of Freight In Eastern Ports—Liners Arrive

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 10.—A day and night without further news of the U-53 has not quieted any of the anxiety in shipping circles caused by the activities of the submarine commerce raider at the head of the great North Atlantic highway off Nantucket. If anything, the disappearance of the German U-boat and the mystery regarding her present location increased the precautions by owners and agents of vessels of the entente nations.
Trans-Atlantic liners and freight steamers approached this port today by unusual courses, which carried them far out of the customary lane. Cargoes worth millions are at stake in the game of hide and seek which may be going on off shore.
The Scandinavian-American line steamer Frederick VIII, bringing James W. Gerard, the American ambassador to Germany, and the Anchor liner Cameronia arrived here early today. The Frederick VIII came from Christiania and the Cameronia from Liverpool with 671 passengers.
The Frederick VIII passed Fire Island at 3:45 a. m. Two hours later she was in sight of Ambrose Channel lightship, off the harbor entrance. The Cameronia approached the harbor with all her lights, except a small one on the foremast extinguished, like those of the British cruisers which have been on guard off New York.
Exporters here say the submarine raid and the consequent advance of the insurance rates on trans-Atlantic transportation amounting, in some cases to 500 per cent., will check shipments from New York to European ports. Word was received from New Orleans that war risks on vessels and cargoes out of that port had been suspended and dispatches from other ports indicated that insurance rates had sharply advanced. There was talk of a revival of a railroad embargo on freight, but no new action was taken. A New York Central official said no attempts are being made to halt freight on the way to steamers but that the road would not bring to New York more freight than the steamers could take away.
The French line steamer Espagne was in wireless communication with New York stations early today. Her position was not given, but wireless operators said she had passed Nantucket. On board the Espagne were Mme. Sarah Bernhardt, Mme. Lina Cavalieri, an opera singer; Mme. Marie Montessori, educator and McDougall Hawkes, president of the French Institute in the United States.
The Frederick VIII, according to her officers, sighted no submarines while passing Nantucket and did not change her course. On the voyage from Copenhagen she put in at Kirkwall, Scotland. There the British authorities removed Harald Grebst a Swedish consular agent to Costa Rica, whom they charged with making sketches while in the harbor at Kirkwall. All of the ship's mail was removed at Kirkwall.
The Espagne was reported five miles east of the Ambrose Channel light ship shortly after 8 o'clock and was due at Quarantine about 9:45 a. m.

GERMAN SUBS SUNK BY SLAVS IN SHORT BATTLE

(ASSOCIATED PRESS TELEGRAM)
Christiania, Monday, Oct. 9, via London, Oct. 10.—A Russian torpedo boat yesterday sank two German submarines after the submarines had attacked the Russian wireless station at Sennavolok on the Murman coast, according to information received here today from Petrograd. Several persons were killed by the gun fire of the submarines.

KINGSTONIAN'S CREW IS STILL MISSING TODAY

(ASSOCIATED PRESS TELEGRAM)
Newport, R. I., Oct. 10.—The crew of the British freight steamer Kingstonian missing since Sunday when its members abandoned their ship at the order of the raiding German submarine in the waters off Nantucket shoal lightship, had not been heard from today. Eleven torpedo boat destroyers were despatched to the vicinity of the lightship by Rear Admiral Albert Gleaves to continue the search.

BULGARIANS RETIRE BEFORE BRITISH TROOPS

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 10.—The Bulgarian forces which have been opposing the British troops in the region to the east of the river Struma, in Greek Macedonia, have retired to the hills northwest of Seres, says the British official statement issued today. The British have occupied the towns of Kalendra and Homondos.

Arrest Promoter of Baseball Pool On World's Series

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, Oct. 10.—Government action into an alleged baseball pool on the world's series was taken here today when Harry D. Nabor of Cincinnati was arrested by United States deputy marshals, charged with violating the lottery sections of the postal laws. The officers claimed that Nabor was here in connection with a pool on the world's series now in progress. According to the officials the pool is operated from a central headquarters in Chicago.
Nabor was given a hearing before U. S. Commissioner Adler and his bond fixed at \$2,000.

ANXIETY

Among Shippers Increased by Ignorance of Movements of U-Boat Raider

INSURANCE RATES JUMP

Shipments to European Destinations Checked by High Rates On War Risks—Talk of Railroad Embargo to Prevent Congestion of Freight In Eastern Ports—Liners Arrive

(ASSOCIATED PRESS TELEGRAM)

EFFORTS

OF POPE TO BRING ABOUT PEACE HAVE BEEN UNSUCCESSFUL HE SAYS.

Tells German Bishops That He Had Endeavored to Soften Antipathy Between Belligerents.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Oct. 9.—(Via London, Oct. 10.)—A Cologne dispatch says that the Pope has addressed a letter to the German bishops through Cardinal von Hartmann declaring that though his efforts for peace are at present unsuccessful he is endeavoring to soften the violent animosity between the belligerent peoples.
"Our bitter grief," writes the pontiff, "over the frightful bloodshed is increased by the fact that our repeated efforts for peace encounter on the part of some, contemptible attempts to cast suspicion on our motives, by others open rejection. We wish, however, while steadfastly awaiting peace, to lighten to some little extent, at least, by all the means in our power, the heavy burden which the war entails."
The most important task today is an effort to end that animosity between the members of the various nations, now sharpened through war but decreased by mutual works of Christian mercy.

Distinguished Men Will Speak In Newark Next Monday

The Vice President of the United States and Ohio's Senior United States Senator

Thomas R. Marshall and

Atlee Pomerene

Will address the people on the political issues of the day at the south steps of the Licking county courthouse at Newark on

Monday, October 16th, 1916

Hon. W. D. Fulton, Democratic candidate for Secretary of State will preside.

—EVERYBODY IS INVITED—

"Look Pa, How 'Gets-It' Works!"
Lifts Your Corn Right Off.
"Have in your life ever a corn come out like that? Look at the true skin underneath—smooth as the palm of your hand!"

Well Now, Look at That! Off Comes That Pesky Corn as Slick as a Whistle.
The earth is blessed with the one, simple, painless, never-failing remedy that makes millions of corn-pestered people happy. And that's "GETS-IT". Apply it in 2 seconds. It dries some people jab and dig at their corns with knives and razors—wrap their toes in packages with bandages or sticky tape, make them red and raw with salves. Nothing like this with "GETS-IT". Your corn loosens—you lift it off! There's nothing to press on the corn, or hurt. A sure relief. Ask for more. Try it tonight on any corn, callus or wart.
"GETS-IT" is sold and recommended by druggists everywhere. See a bottle or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.
Sold in Newark and recommended as the world's best corn remedy by T. J. Evans, W. A. Eiman and C. T. Bricker.

DUBL-R
Banishes RHEUMATISM
One package proves its value. Astonishing results. Sure relief! Two treatments at one price. Sold in Newark and recommended by T. J. Evans.

STATION AGENT ROBBED BY WOMAN IN AN AUTOMOBILE

Myria, O., Oct. 10.—Ezra Knowles, station agent at Shawville, was held up and robbed by two men and two women in an automobile between this city and Ridgeville last night. At the point of a gun the men held him up while the women went through his pockets, taking his watch, ring, \$9 in cash and a gold pin.

COOMBS

(Continued from Page 1)
ing to third. Coombs up, Olson scored on Coombs' pretty single by Janvrin. Myers up, Myers sacrificed, Mays to Hoblitzel. Daubert up, ball one, ball two, foul strike one. Scott threw out Daubert. One run, two hits, one error.

Fifth Inning
First Half—Lewis up, strike one, ball one, foul strike two, ball two. Lewis shot a liner right into Wheat's hands. Gardner up, strike one, ball one, ball two, ball three, strike two. Gardner popped to Mowrey. Scott up, strike one, Coombs threw out Scott. Coombs was pitching a superb game. His control was perfect and he mixed up a fast ball with a slow drop curve. No runs, no hits, no errors.

Last Half—Stengel up, ball one, foul strike one, foul strike two, ball two, ball three, foul. Stengel fouled out to Gardner who took the ball off a spectator's hat. Wheat up, ball one, ball two, strike one, ball three. Wheat walked. Cutshaw up, strike one, ball one, ball two, it was a pitch-out but Wheat outguessed Mays and remained on first. Mays threw out Cutshaw at first, Wheat going to second. Mowrey up, ball one, ball two, Manager Carrigan claimed that Mowrey struck at the ball but Umpire O'Day would not allow it. Strike one, ball three, strike two, Mowrey walked. Olson up, Wheat and Mowrey scored on Olson's slashing three bagger to left center. Miller up, Scott threw out Miller at first. Two runs, one hit, no errors.

Sixth Inning
First Half—Thomas up, strike one, Olson took care of Thomas' grounder and threw him out. Henriksen batting for Mays. Henriksen up, ball one, ball two, ball three, Henriksen walked. Hooper up, strike one, Hooper sent a long drive to right center for three bases scoring Henriksen. Janvrin up, ball one, Janvrin popped to Cutshaw. Shorten up, strike one, Hooper scored on Shorten's single over second. It was Shorten's third hit. Hoblitzel up, strike one, ball one, ball two, Coombs threw out Hoblitzel. Two runs, two hits, no errors.

Second Half—Foster went into the box for Boston. Coombs up, ball one, strike one, ball two, ball three, strike two, Coombs line flied to Scott. Myers up, strike one, foul strike two, ball one, ball two, Myers popped to Gardner. Daubert up, ball one, Daubert got a three base hit to left but was out at the plate, Lewis to Scott to Thomas. No runs, one hit, no errors.

Seventh Inning
First Half—Lewis up, strike one, strike two, ball one, Lewis was out to Daubert unassisted. Gardner up, strike one, ball one, ball two, Gardner got a home run over the right field wall. Scott up, Coombs, signaled for a relief pitcher. Pfeffer now went into the box for Brooklyn. Scott up, strike one, ball one, Scott flied out to Myers. Thomas up, ball one, ball two, strike one, foul strike two, ball three, foul, Thomas struck out. One run, one hit, no errors.

Second Half—Stengel up, strike one, ball one, foul strike two, Stengel flied to Hooper who gathered in the ball after a long run. Wheat up, Wheat got a single to right. Cutshaw up, strike one, Wheat stole second. Ball one, ball two, The official scorer has given Foster a wild pitch. Foul strike two, Cutshaw flied to Hoblitzel. Mowrey up, strike one, Foster threw out Mowrey. No runs, one hit, no errors.

Eighth Inning
First Half—Foster up, strike one, ball one, strike two, ball two, ball three, Foster struck out. Hooper up, strike one, ball one, foul strike two, foul. Miller went out. Hoblitzel to Foster. Pfeffer up, Pfeffer got a single to right. Myers up, strike one, strike two, ball one, ball two, Myers struck out. No runs, one hit, no errors.

Last Half—Olson up, Foster threw out Olson, knocking down his high bouncer. Miller up, ball one, foul strike one, foul strike two, foul, foul. Miller went out. Hoblitzel to Foster. Pfeffer up, Pfeffer got a single to right. Myers up, strike one, strike two, ball one, ball two, Myers struck out. No runs, one hit, no errors.

Ninth Inning
First Half—Shorten up, ball one,

BELL-ANS
Absolutely Removes Indigestion. One package proves it. 25c at all druggists.
SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is
Paxtine
A soluble Antiseptic Powder to be dissolved in water as needed.
As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine illness it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

ball two, strike one. Shorten fouled out to Wheat. Hoblitzel up, strike one, ball one, Olson threw out Hoblitzel. Lewis up, ball one, Lewis flied to Stengel. No runs, no hits, no errors.

Obituary

Mary Augustine Smith.
Mary Augustine Smith, daughter of Mr. and Mrs. Charles Smith of Hebron, Ohio, died Oct. 7, 1916, after a three weeks' illness of typhoid fever, aged 16 years, 6 months and 17 days.
She was born at Weston, W. Va. March 20, 1900, and came with her parents to the farm near Hebron, five years ago. She attended the Messmore school and the Jackson-town high school, of which she was a member of the junior class. She was also a member of the Jackson-town Grange.
She leaves to mourn her death her parents, three brothers, two sisters and many friends.
The teachers and the students of the Jacksonville high school desire to express their sorrow at the sad death of their former pupil and schoolmate. She was always cheerful and happy, and we shall always keep mingled with our sorrow the memory of our friendship with her. To her bereaved family we offer our sincerest sympathy. We know how sadly they mourn her death and how greatly they feel their loss.

LANSING CONFERS WITH MR. GERARD

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 10.—Prior to the departure this afternoon of Secretary of State Lansing for Long Branch to see President Wilson, Mr. Lansing and James W. Gerard, ambassador to Germany, had a conference with Cole M. House, President Wilson's close friend and advisor.

INVALID SAVED FROM FIRE.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, Oct. 10.—William Newburn, 40, an invalid, was rescued and thirty people were driven to the street from their homes in a fire which destroyed \$10,000 worth of property early this morning on Euclid avenue.

PARALYSIS CLOSES SCHOOLS.

(ASSOCIATED PRESS TELEGRAM)
Chardon, O., Oct. 10.—Infantile paralysis has closed schools and all entertainments in Burton and caused one death. Aurilla Green, aged 8. One new case was reported today, that of Thelma Green, aged 6, sister of the dead girl.

KNIGHT TEMPLARS AT TIFFIN.

All indications are that a splendid turnout will be made to the state convalesce at Tiffin. Trains will leave the B. & O. depot at 6:50 tomorrow morning and take on the commandery at Mt. Vernon and from there will be through run arriving at 10 o'clock.

Mrs. Leslie Beggs is ill with typhoid fever.

Fooled His Subjects.

King Ericus of Sweden publicly confessed that he was a sorcerer and magician. He was the owner of an enchanted cap, which he pretended enabled him to control the spirits and change the direction of the winds at pleasure. So firmly did his subjects believe in the supernatural powers of their ruler that when a storm arose they would exclaim, "Ah, the king is again wearing the magic cap!"

What She Misses.

"I suppose you miss your husband terribly?"
"No, I can't say that I do. I was a golf widow for years before he died, but it does seem strange not to have him phone that he is going to be late for dinner."—Detroit Free Press.

The grandeur of Caruso; the romance of Italy in a new Victor Record

Santa Lucia (Neapolitan Folk Song) Enrico Caruso
Victor Red Seal Record 98560. Twelve-inch, \$3.
The mighty Caruso gives the world this romantic melody of his native Naples with all the riches of his sublime voice, and all the passion of the artist who has lived the song he sings.
To hear this record is to marvel at an art that conjures the balm of southern skies, the drift of lazy waters—all the spell of Italy as Caruso's youth knew it.
And to hear this record is to know why the greatest artists in the world make records for the Victrola *exclusively*. The Victrola is more than the voice of the great artist. It is his genius.
Go to your nearest Victor dealer today and have him play for you the new Caruso record or any other Victor music you wish to hear. He will also gladly demonstrate to you the various styles of the Victor and Victrola—\$10 to \$400.
Victor Talking Machine Co., Camden, N. J.
Important warning. Victor Records can be safely and satisfactorily played only with Victor Needles or Tungs-tone Stylus on Victors or Victrolas. Victor Records cannot be safely played on machines with jeweled or other reproducing points.
New Victor Records demonstrated at all dealers on the 25th of each month.

Dye Industry Can Export Product; Output Increases

(ASSOCIATED PRESS TELEGRAM)
Atlantic City, N. J., Oct. 10.—Manufacturers of this country will soon be in a position not only to meet the domestic demand but to export dyes, "provided they are given protection through tariff legislation," according to statements made before the annual convention of the National Paint, Oil and Varnish association in session here.

MEXICANS FLEE TO EL PASO WHEN VILLA APPROACHES

(ASSOCIATED PRESS TELEGRAM)
El Paso, Oct. 10.—A long train packed with Mexican refugees arrived in Juarez today. There were two American families among the passengers, who said the Mexicans left the border because of the report that Villa was in control of the Guerrero district. They reported the journey uneventful and the track seemingly in normal condition.

OIL AGENTS OFFER 10 CENTS ADVANCE FOR CRUDE PRODUCT.

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, Oct. 10.—Continuing their efforts to bring to the refineries the vast quantities of crude oil now in the hands of producers the principal purchasing agencies today, at the opening of the market announced an increase of ten cents a barrel for the higher priced grades and five cents for the heavy oil. The new prices are as follows: Pennsylvania Crude \$2.50; Cabell \$2.62; Mercer Black, Corning and New Castle \$2; Somerset \$1.85; Spyridon Lambros; minister of for-

Cotton Grower's Wife is Injured By Night Riders

(ASSOCIATED PRESS TELEGRAM)
Oklahoma City, Okla., Oct. 10.—Mrs. Cecil Mattoon, wife of a prominent cotton grower here is in a serious condition today as the result of a shot which struck her last night as she stood near a window trying to identify members of a band masked night riders that had attacked her home. Mattoon returned the fire of the band as the horsemen rode around his home, Indian fashion, firing from rifles and pistols.
Four men, said to have been among those who recently warned Mattoon that his employment of negroes in the harvest of cotton must cease, have been arrested by the sheriff. They are held on charges of assault with intent to kill. Mattoon frequently had been threatened before the attack last night.

MORGAN ASKS FOR PARDON; WAS CAUSE OF PROBE

(ASSOCIATED PRESS TELEGRAM)
Columbus, Oct. 10.—Harris J. Morgan, who was responsible for the recent penitentiary investigation and who is serving an 18 year sentence in the penitentiary for burglary, today appealed to the governor for a pardon or commutation of sentence.

This is the
Stove Polish
YOU
Should Use

It's different from
others because more care
is taken in the making
and the materials used are of
higher grade.

**Black Silk
Stove Polish**

Makes a brilliant, silky polish that does
not rub off or dust off, and the shiniest
four times as long as ordinary stove
polish. Used on stoves and sold
by hardware and grocery dealers.

All we ask is that you try our Black Silk
Stove Polish on your stove. If you
don't find it the best stove polish you ever
used, your dealer is authorized to refund your
money. Write to Black Silk Stove Polish,
Mills in liquid or paste—same quality.

Black Silk Stove Polish Works
Sterling, Illinois

Use Black Silk Air-Drying Iron Remover on
grates, registers, stove-pipes—Prevents rusting.
Use Black Silk Metal Polish for silver, nickel
or brass. It has no equal for use on automobiles.

"A Shine in Every Drop"

SAYS USE SAGE TO PREVENT BALDNESS

It Puts Hair on Your Head and
Helps to Keep it there.

What's the use of being bald?
What sense is there in deliberately
allowing your hair to turn gray?

These conditions come mostly from
neglect but the frequent application
to the hair and scalp of a little of
the real Parisian Sage will prevent
baldness and grayness in nearly
every instance.

Most people take good care of
their teeth, but sadly neglect their
hair. They are equally important.
Look after your hair. Parisian Sage
is a scientific preparation that sup-
plies hair needs—it's just what you
want. It prevents grayness and
baldness by putting life and nour-
ishment into the hair roots.

Man or woman, no matter how old
you are, Parisian Sage will help you
to look younger and more attractive.

Why not go to W. A. Erman and
get a large bottle today? It's inex-
pensive, and your money back if it
does not cure dandruff, stop falling
hair or itching scalp. It will make
your hair grow luxuriant, bright and
beautiful. The genuine Parisian
Sage, as sold by good druggists
everywhere, is a most refreshing,
delicately perfumed, and invigorat-
ing hair dressing—free from sick-
ness—and absolutely harmless to the
hair and scalp.—Advertisement.

Banishes Nervousness

Puts Vigor and Ambition
Into Run-Down, Tired
Out People

If you feel tired out, out of sorts,
despondent, mentally or physically
depressed, and lack the desire to
accomplish things, get a 50-cent box
of Wendell's Ambition Pills at T. J.
Evans' drug store today and your
troubles will be over.

If you drink too much, smoke too
much, or are nervous because of
overwork of any kind, Wendell's
Ambition Pills will make you feel
better in three days or money back
from T. J. Evans on the first box
purchased.

For all affections of the nervous
system, constipation, loss of ap-
petite, lack of confidence, trembling,
kidney or liver complaints, sleepless-
ness, exhausted vitality or weak-
ness of any kind, get a box of Wen-
dell's Ambition Pills today on the
money back plan. Mail orders filled,
charges prepaid by The Wendell
Pharmaceutical Company, Inc., Syracuse,
New York.

ONLY POWERFUL MEDICINE WILL END RHEUMATISM

It matters not whether you have had
agonizing pains from rheumatism for
20 years or distressing twinges for
20 weeks. Rheuma is strong enough
and mighty enough to drive
rheumatic poisons from your body and
abolish all misery or money back.
T. J. Evans and all druggists sell
Rheuma on a no-cure-no-pay basis for
not more than 50 cents a bottle, and
after you take a half teaspoonful once
a day for two days you should know
that at last you have obtained a remedy
that will conquer rheumatism.

For over five years throughout
America Rheuma has been pre-
scribed by broad-minded physicians and has
released thousands from agony, pain
and despair. (Advertisement.)

ANTI-TRUST

SUIT AGAINST RAILROAD MONOP-
OLY OF ANTHRACITE MINES—
IN SUPREME COURT.

Seven Hundred Cases On New Term
Docket Which Opened In Wash-
ington—Other Trust Suits.

(ASSOCIATED PRESS TELEGRAM)

Washington, Oct. 10.—Hearing
today of the government's anti-
trust suit against the Reading rail-
road interests for alleged monopoly
of anthracite coal production and
transportation launched actual con-
sideration by the supreme court of
more than seven hundred cases on
its new term docket. The first opin-
ions on cases argued at the last
term, are set for next Monday.

The Reading case headed a list
of specially important litigation ad-
vanced for more prompt disposition.
The alleged combination is said to
have assets of \$500,000,000. Fol-
lowing this case a similar suit
against the Lehigh Valley and con-
sistent interests is to be heard.

The suit against the Reading com-
pany, a holding corporation, the
Philadelphia and Reading railroad,
the Philadelphia and Reading Coal
and Iron company, the Central rail-
road of New Jersey, the Lehigh and
Wilkesbarre Coal company and oth-
ers, including Geo. F. Baer and oth-
er Reading directors, was begun at
Philadelphia in 1913 in the federal
district court. Its decision was fa-
vorable in part only to the govern-
ment, in deciding that the holding
company's union of the Philadelphia
and Reading Coal and Iron company
and the Lehigh and Wilkesbarre
Coal company, two of the largest an-
thracite producers, was a combina-
tion in restraint of trade. The low-
er court rejected the government's
charges that the Reading itself, with
its constituents was an unlawful
combination, or that its carriage and
production of coal constituted a vio-
lation of the "commodities clause."

On appeal the government is seek-
ing separation of the Reading and
Central New Jersey railroad and coal
interests, to divorce transportation
and production, restore competition
between the Reading and Central
New Jersey roads, and re-distribution
of stock of the Lehigh and Wilkes-
barre Coal company.

That the Reading interests control
194,000 acres of coal land with two
billion available tons, or 63 per
cent of the known supply, is con-
tended by the government. In re-
plies filed the defendants deny con-
trol of more than 20 per cent and
declare their profits have averaged
only 13 1/2 cents a ton. They also
assert that the Reading and Central
New Jersey railroads are non-com-
petitive, and resist the dissolution
remedies sought by the government.

Negro Who Escaped Lynching Is Sent to the Penitentiary

Lima, O., Oct. 10.—Charles Dan-
iels, negro, convicted of assault on
Mrs. Vivian Baber, which brought
about the recent riots here, was sen-
tenced to three to 20 years in the
penitentiary. Daniels was saved
from lynching when he was secretly
removed from the Lima jail to an-
other city. A mob mistreated the
sheriff in an effort to learn where
the prisoner was hidden.

NEWARK R. F. D. 7

nose, tight chest, sore throat, are
sure signs of cold, and Dr. King's
New Discovery is sure relief. A
dose of this combination of antiseptic
balsams soothes the irritated
membrane, clears the head, loosens
the phlegm, you breathe easier and
realize your cold is broken up. Treat
a cold persistently; half-way meas-
ures leave a lingering cough. Take
Dr. King's New Discovery until your
cold is gone. For 47 years the fa-
vorite remedy for young and old. At
your Druggist, 50c.—Adv.

GREEN CHARGES WILLIS FALSELY ACCUSES COX

Columbus, O., Oct. 10.—Former
State Senator William Green, au-
thor of the compulsory workmen's
compensation law and now president
of the Ohio League for the Protec-
tion and Preservation of Workmen's
Compensation, yesterday denied the
charges of Governor Willis that
while the bill was pending in the
legislature Governor Cox forced an
amendment over the protest of
Green and the protest of labor.

Willis has charged in his cam-
paign speeches that the section of
the law permitting employers' liabil-
ity companies to operate in Ohio
was forced by Cox. Green asserts
that the amendment was intended
merely to allow employers to carry
their own insurance. He said:

"I was consulted with and agreed
in the amendment of the law with-
out protest as a matter of justice to
those employers who had provided
compensation for injured workmen
voluntarily and had maintained
hospitals at their own expense, and
who still do that of their own free
will.

"It was intended, and the amend-
ment for framed on the best legal
advice with that in view, that em-
ployers' liability companies should
be barred forever. Under Governor
Cox they were barred. Under Gov-
ernor Willis and his Judge Taggart
ruling the liability companies re-
sumed business.

"The initiated statutory amend-
ment now sought by labor would
not take away the right of self-in-
surance of employers. This is evi-
dence that labor did not protest
against this right in the present
law. But the initiated amendment
would take away the right sought
to be given the enemies of labor by
the Willis administration.

"Governor Cox took a direct and
firm stand against employers' liabil-
ity insurance companies in 1914.
The platform on which he is now a
candidate emphasizes that stand in
1916. Neither Governor Willis nor
the platform is on record. The em-
ployers' liability companies are for
Willis and against Cox. They know
who will be for them."

A Chinese Hero.

At Loping Hsien is a statue draped
in full dress of a mandarin (the pu-
ting or police master) named Chin,
who gave his life for the people. An
exile who was in the camp at Jao-
chow and who owed the hsien (district
magistrate) a grudge, rode a black
horse to Loping and, having killed the
hsien, got back for the Jaochow roll
call next morning. As the murderer
could not be found orders came from
the capital that a large number of
the people should be killed. To prevent
this slaughter of innocent folk the pu-
ting, a good old man, said he stabbed
the hsien after a few words over the
wine cups, and he was consequently
beheaded. No resident of the district
would deal the fatal blow, but an itin-
erant cobbler or bamboo worker did it
for a reward of 40 taels. Tradition
adds that he was struck dead by light-
ning after leaving the execution ground.

For All Complexion Ills

If the skin be colorless, sallow, mud-
dy, covered with blemishes or itched, noth-
ing will so surely overcome the con-
dition as ordinary mecolized wax. It
literally takes off a bad complexion—
absorbs the dead and decaying par-
ticles of surface skin, gently, gradu-
ally, causing no inconvenience at all.
A new complexion is then in evidence.
Clear, spotless, delicately soft and
beautiful. One ounce of this wax,
procureable at any druggists, will re-
juvenate the worst complexion. It
is used like cold cream.

OFFERING The 7 per cent Participating, Cumulative Convertible, Preferred Stock OF THE MYKRANTZ COMPANY COLUMBUS, OHIO

Authorized Preferred\$500,000.00
To be Issued.....\$250,000.00

TAX FREE IN OHIO

The Mykrantz Company is the incorporation of the business built up and conducted so successfully
in Columbus, for the past several years by F. F. Mykrantz.

F. F. Mykrantz having built this business to its present proportions single-handed—it having grown
from one store to ten—has turned it into a corporation for the purpose of preserving and further extend-
ing the business.

Within the past four years, nine stores have been established, and all have proven profitable. Every
store, two years or more old, has earned itself out.

The net profit from the Columbus stores for the past year was \$22,400, a sum sufficient to pay nearly
two and one-half times the fixed dividend charges on the outstanding preferred stock.

It is proposed to establish additional stores, from the proceeds of the sale of Preferred Stock, and
from the surplus profit over and above the dividends and the Preferred Stock until the organization has
one hundred stores.

The mercantile reports indicate that the drug business is the safest of all retail business. Also there
is no recorded failure of a chain of drug stores such as this.

This undertaking offers the acme of safety in a retail business. Other examples of such chains are:
The United Drug Company, principally in New England and the East, \$35,000,000.

The Owl Drug Company, practically controlling the drug business of the Pacific Coast and the Dow
Drug Company dominating the drug business of Cincinnati.

The business has been audited by J. J. McKnight, C. P. A.

The furniture and fixtures have been appraised by The Modern Showcase & Fixture Company.

The Soda fountains and equipment have been appraised by The Liquid Carbonic Gas Company.

The leasehold estates have been valued by The Beggs Realty Company.

The officers and directors of the Mykrantz Company are:

F. F. MYKRANTZ, President and Manager.

C. E. MORRIS, Vice-President—President and Treasurer The C. E. Morris Co.

C. EDW. BORN, Treasurer—President Central National Bank.

DWIGHT HARRISON, Attorney.

E. L. TAYLOR, Jr., General Counsel.

Some of the protective provisions of the Preferred Stock as follows:

1. The seven per cent dividend is Preferred, Participating and Cumulative, i. e. (a) Preferred stock in that seven per cent must be paid upon the Preferred Stock before any dividend may be paid upon the Common Stock. (b) Participating in that seven per cent having been paid upon the Preferred, the guarantee fund provided for—and seven per cent then paid upon the Common, any further dividends must apply to the Preferred and Common, share and share alike. (c) Cumulative in that, if for any reason a Preferred dividend should be missed it must be paid before any dividend can be paid on the Common.
2. Preferred Stock Dividend Guaranty Fund—Beginning July, 1917, the corporation shall set aside \$5,000 every six months, before the payment of any dividend on the Common Stock to be credited to a "Preferred Stock Dividend Guaranty Fund" until such fund shall equal one full year's dividend on the outstanding Preferred Stock. This shall constitute a trust fund—deposit in the bank—to protect and guarantee the Preferred Stock dividends.
3. Voting Rights—In case any of the rights secured to the Preferred stockholders are violated then they gain sixty per cent of the voting power of the company and can install their own management.
4. Preferred Stock is Redeemable or Convertible—The Preferred Stock is subject to redemption at any regular dividend period after January, 1922, at \$110 and any unpaid dividends but the stockholders may elect instead of accepting this price to accept an equal number of shares of Common Stock instead. Thus the Preferred stockholders are secured the advantage of any exceptional profits the company may earn.
5. Preferred as to Assets—In case of discontinuance of the business, consolidation merger, or other such change, the Preferred Stock is entitled to be paid in full, both the par value and any accrued or accumulated dividends, before the Common Stock shall receive any part of the assets of the company.
6. Insurance—The corporation must keep its stores and property insured in an amount reasonably sufficient for protection against loss in good and responsible insurance companies, to be approved by the representative of the Preferred stockholders.

But one-half of the authorized Preferred issue is now offered for sale and for immediate subscription this may be had at par, \$100.00 a share. The right is reserved to return over subscriptions or to fill all subscriptions pro rata.

Miller's Antiseptic Oil Known as

Snake Oil

Will Positively Relieve Pain in
Three Minutes.

Try it right now, for Rheuma-
tism, Neuralgia, Lumbago, sore,
stiff and swollen joints, pains in the
head, back and limbs, corns, bunions,
etc. After one application pain
disappears as if by magic.

A never-failing remedy used inter-
nally and externally for Coughs,
Colds, Croup, Sore Throat, Dip-
theria and Tonsillitis.

This oil is conceded to be the
most penetrating remedy known. Its
prompt and immediate effect in re-
lieving pain is due to the fact that
it penetrates to the affected parts
at once. As an illustration, pour
ten drops on the thickest piece of
sole leather and it will penetrate
this substance through and through
in three minutes.

Accept no substitute. This great
oil is golden red color only. Every
bottle guaranteed—25c and 50c a
bottle, or money refunded. At lead-
ing druggists. Hall's drug store.

ESTABLISHED IN 1820

Entered as Second Class Matter
March 10, 1892, at the postoffice at
Newark, Ohio, under the Act of March
4, 1879.

It is never a good plan to swap
horses while crossing a stream of
water.—Abraham Lincoln.

Newark Lyceum Course.
The Newark High School Lyceum
course will open next Friday evening,
October 13, with the Oxford
company which two years ago de-
lighted a local audience with "The
Mikado." Next Friday the Oxford
company will present "The Choco-
late Soldier" at the High School
auditorium.

The second number comes Octo-
ber 30, when James A. Burns, pres-
ident of Oneida Institute, in Ken-
tucky, former Granville student, will
speak. President Burns is the
mountaineer who founded a college
in the Kentucky wilderness to save
his own people from degeneracy and
feuds. The remaining numbers on
the program, eight in all, include
Russell H. Conwell, Dr. Cadman
and Sidney London. In fact, it is the
strongest program that has been of-
fered since the local course was first
presented nine years ago.

The Newark High School course is
not conducted for profit. It is man-
aged by Principal D. J. Barnes for its
public educational value and
every dollar that is available is put
into the course. The school board
makes no charge for use of the au-
ditorium, so aside from \$100 cover-
ing advertising and incidental ex-
penses, the entire receipts are used
to pay for the talent.

The Auditorium seats 1015 peo-
ple. Season tickets are sold to the
public for \$1.50—less than 20 cents
a number and to public school stu-
dents the price is even less.

At present 225 seats are unsold
and this means that the course this
year will be conducted at a loss un-
less the remaining tickets are taken
promptly.

The course this year provides
wholesome amusement, high class
entertainment and special features
that make it of great educational
value. The Conwell lecture alone
is worth the price of the entire sea-
son ticket. The 225 tickets remain-
ing unsold should be snapped up
quickly.

Helping Foreigners.
Some one remarked the other day
that it is pathetic to see how the
aliens among us suffer from lack of
familiarity with our customs and
language. Under ordinary circum-
stances, the alien in our country
does not ask for much charity. He
is insured to hard work and he learned
economy in the Old World. With
good health, he is quite as apt to
have a bank account as the native
American of equal ability.

But if he falls sick he is more
likely to go to some quack than to a
first rate physician. Or he may get
into the hands of some unsuccessful
doctor who can not afford to be gen-
erous and charges him full toll for
every visit. A more successful and

Daily History Class—Oct. 10.
1738—Benjamin West, one of Ameri-
ca's early painters, born; died 1820.
1872—William Henry Seward, states-
man, secretary of state under Lin-
coln and attacked by the plotters
who killed his chief April 14, 1865,
died; born 1801.
1912—Huerta became dictator of Mex-
ico.
1914—King Charles of Roumania died.
Succeeded by his nephew Ferdi-
nand.
1915—German attacks on the western
front repulsed.

Mentality and Teeth.

(The Outlook.)

Some time ago an experiment was
carried on in a Cleveland school un-
der the auspices of the National
Dental Association and other dental
societies to discover if bad teeth had
any effect on mentality. Ten deut-
ists, with nurses and attendants,
visited the Marion school by ar-
rangement with the board of educa-
tion and inspected the teeth of 846
students. Forty pupils from five
grades—approximately 10 per cent.
of the children of those grades—
were made a special class for ob-
servation and study. These children
were to have their teeth put in per-
fect condition free, be made to
brush their teeth three times a day
and to eat properly. A \$5 gold piece
was offered to each child who con-
tinued faithful throughout the test.
Twenty-seven of the forty got their
gold pieces. The test lasted a year
and a half.

Before anything else was done
two psychological tests were held by
Dr. Wallin, the noted psychologist,
to determine the capacity of the
children in memory, accuracy of
perception, rapidity and accuracy of
thought, and spontaneity of thought
and differentiation. Two more tests
were held while the children's teeth
were being treated; and two others
a sufficient length of time after the
months were put in perfect condi-
tion.

Among the children were some
who were well behaved, earnest and
bright, while some were disobedient,
reckless and troublesome. The
selections for the class were made
wholly according to the dental
charts, only children with teeth in
bad condition being chosen. Most
of the children had shallow, muddy
complexions, and suffered from
headaches, liver complaint, heart
trouble and other ills.

**Using Hughes To Club
Wilson.**

(Springfield Republican.)

Mr. Wilson is the only Presiden-
tial candidate who is insulted by the
"Germany first" contingent in this
country. He is the man marked for
slaughter because his foreign policy
has been resented in Berlin. The
club to be used in ending his career
by these hyphenates is Charles
Evans Hughes, no less; and Mr.
Hughes is a willing instrument.
While he sonorously proclaims
"dominant Americanism," he leaves
to others the job of rebuking and
defying an insolent alienism. He has
regulated his campaign utterances to
date so as to be the beneficiary of
the punishment which a pestilent
hyphenism plans to inflict upon an
American President.

Yet, apparently, there are people
with sympathies fiercely contrary
to those of the men managing these
German organizations, who join the
"Germany first" leaders in making
war on Wilson. They talk about de-
feating Wilson in order to safeguard
or retrieve the national honor to
have the defeat of Wilson celebrated
in any quarter of the country or of
the world as a triumph for an alien-
ism that gets its inspiration from
Berlin? Is the decisive force in this
campaign to be a fantastic merger of
hates?

Alaska's New Staple.

(Washington Post.)

No longer do salmon and gold oc-
cupy the first places among Alaska's
export staples. They have given
way to the export of copper, which
in the present fiscal year had a
total value of more than \$26,000,-
000, compared with \$5,000,000 in
1915 and less than \$4,000,000 in
1914.

The total imports from Alaska, ac-
cording to the Department of Com-
merce, are more than double in val-
ue the annual average since 1912.
The receipts of copper in ore matte
and regulus from Alaska aggregated
117,000,000 pounds in 1915-16, and
this was four times the average for
the preceding years. It also exceeds
the combined imports of that class
from Chile, Cuba, Canada and Mex-
ico, the leading foreign sources of
this form of copper.

If Alaska can do so well under a
policy of slightly increased liberality,
what would she not do if private
capital were encouraged there, as it
was in connection with the develop-
ment of the western part of the
United States? It is doubtful
whether many persons realize the ex-
tent of the resources of Alaska. It
is one of the richest sections of the
United States, and every effort
should be made to encourage its de-
velopment.

When T. R. Was President.

(Philadelphia Record.)

A correspondent of the New York
Times notes the Colonel's assertion
that "if a strong man had been in
the Presidential chair in August,
1914, there would have been no in-
vasion of Belgium," and adds:
"In 1908 Austria violated a treaty
when she seized Bosnia and Herz-
egovina. That treaty was just as
binding as the treaty that Germany
violated when she invaded Belgium,
and its breaking is the real cause of
the present war. Mr. Roosevelt was
in the Presidential chair in 1908.
Did he protest?
Those whose memories go back to
1908 will recall that Mr. Roosevelt
made no protest and that no Euro-

pean nation at that time paid any
more attention to him than they did
to President Wilson in 1914. The
Kaiser rattled his sword, the Rus-
sian bear growled, and Austro-Hun-
gary fastened her talons more
tightly on Bosnia and Herzegovina.
Everything pointed to war, which
was only barely averted at that time,
to break out six years later. What
did the "strong man in the White
House" do? Nothing, absolutely
nothing. If war had broken out
Germany would have invaded
France, an ally of Russia. Just as
she did in 1914. The protest of the
President of the United States would
have availed just about as much as
that of the King of Abyssinia. It is
curious that Mr. Roosevelt never
mentions this historical parallel.
Possibly it does not fit in with his
line of argument.

O'Leary Working for Wilson

(Baltimore Sun.)

Mr. Jeremiah O'Leary, president
of the American Truth Society,
whose insulting telegram to the
President procured him the honor of
being pilloried in political history by
a distinguished hand, now proposes
to go into Court and get a judicial
definition of hyphenism and patriot-
ism. Mr. O'Leary is taking a very
circuitous and uncertain route to
reach a point close at hand. In one
month from today he will get a ver-
dict from the Court of last resort in
the case of the Hyphen vs. American-
ism. And we are convinced that it
will be a verdict which will leave
Truthful Jeremiah under no illusions
and will spoil his appetite for any
further Court proceedings.

We hope the American people will
put all the force of their good right
arms into that punch of November 7
and that the whole company of
hyphens will get such a jolt as will
make them quieter if not better citi-
zens.

Kilkenny Criticism.

(Philadelphia Record.)

One set of Republican critics of
President Wilson declares that he is
weak and vacillating, shifty and un-
certain, a hair-splitter and phrase-
maker, one thing today and another
next day.

Another set of critics, equally cer-
tain and equally violent, insist that
the President is an usurper, domi-
nating the Congress, the Courts and
all departments of governmental ac-
tivity, as a sort of self-constituted
Czar.

These fault-finders, like the Kil-
kenny cats, eat each other up. The
truth is that Woodrow Wilson is a
stubborn defender of the right as
God has given him the power to as-
certain what is right. The good
people of America have faith in him.
No other occupant of the White
House has ever succeeded in doing
more in four years to justify popu-
lar confidence.

Quaker Quips.

(Philadelphia Record.)

All flesh is as grass, but some of
us are greener than others.
The man who goes to extremes
would bet his bottom dollar to get
on top.
You never can tell. Many a man
aims high who has neglected to take
out a license.
Some girls are so passionately
fond of music that they only go to
church because of the hymns.
Some people are so careful of
their own possessions that they
even do their kicking with borrow-
ed feet.
"Know thyself" may be a good
motto, in spite of the fact that we
are told familiarly breeds contempt.
Wigg—"Is Bjones popular?"
Vagg—"Popular! Why, that fellow
has as many friends as an alarm
clock."
The man who swallows his pride
discovers that even in the winter of
our discontent one swallow doesn't
make a summer.
"There is nothing new under the
sun," quoted the Wise Guy. "That's
right," agreed the Simple Mug.
"Even the good excuses have all
been invented."

Spirit of the Press

Almost Perfect.
In a physical perfection contest
at the recent state fair, Hutchin-
son, Miss Eva Jean Yeoman of
Kingman won second place with a
score of 99 per cent. Miss Yeoman
suffered being pronounced physically
perfect because her arms were just
the least bit too short in proportion
to her other measurements. Carry-
ing a couple of buckets of water
around the block each day probably
would correct this defect in a short
time, but Miss Yeoman very likely
will not do that. She is 20 months
old.—Kansas City Star.

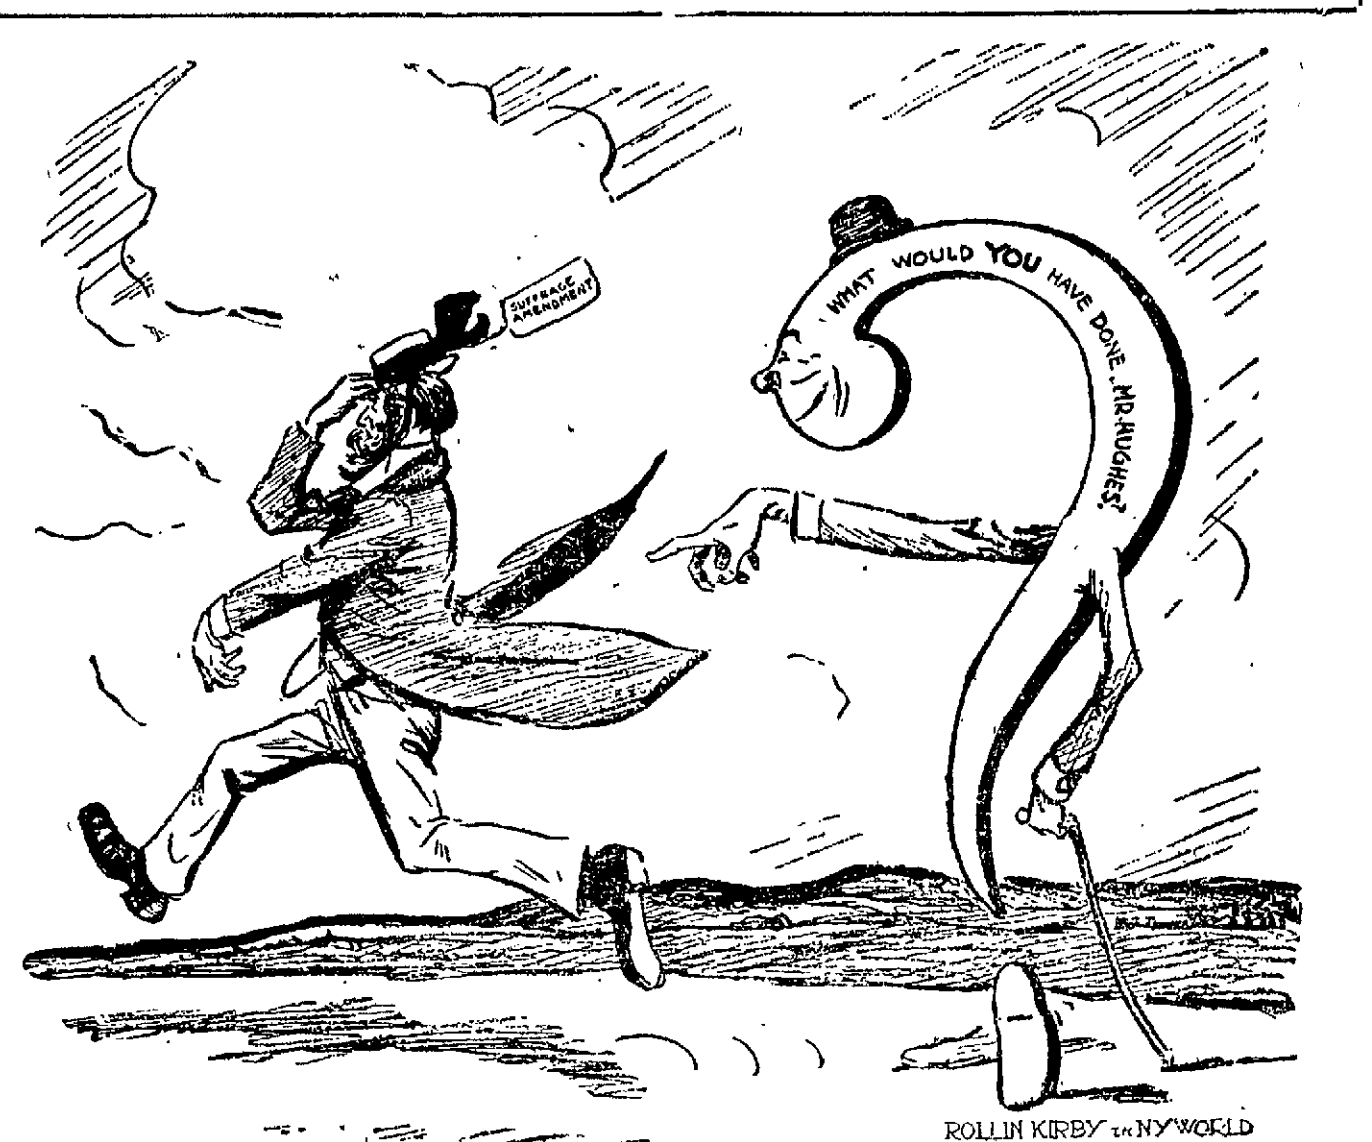

Roumania.

Roumania occupies an interesting
attitude among the nations of Eu-
rope. In about the year 100, Tra-
jan, the Roman emperor, established

**PURE RICH BLOOD
PREVENTS DISEASE**

Bad blood,—that is, blood that is
impure or impoverished, thin and
inactive, is responsible for more ail-
ments than anything else.
It affects every organ and func-
tion in some cases it causes cat-
arrh; in others, dyspepsia; in oth-
ers, rheumatism; and in still others,
weak, tired, languid feelings and
worse troubles.
It is responsible for run-down
conditions, and is the most common
cause of disease.
Hood's Sarsaparilla is the great-
est purifier and catcher of the
blood the world has ever known. It
has been wonderfully successful in
removing scrofula and other hum-
ors, increasing the red-blood cor-
puscles, and building up the whole
system. Get it today.—Advertise-
ment.

RUNNING AWAY FROM IT

ROLLIN KIRBY IN NY WORLD

The Advocate's Melting Pot

Life is Today.
Yesterday and tomorrow are but words.
And all despair and fear and melancholy
Are shadows of that shadow, Cast away
Remembrance, and fear of things to
come.
And live, between the dawn and the
sunsetting;
So shall desire die or be satisfied.
—Arthur Symonds.

Mean Brute!
"The women folks don't live as fast
as men," said grouchy Mr. Hve.
"And it takes them some forty years
To reach the age of twenty-five!"
—Luke Meluke.

Household Hint.
The householder who buys a bush-
el of wheat, grinds it at home in a
hand mill and uses the product in
home-made bread has a cheap and
wholesome food.—Chicago Ameri-
can.

Canada.
Lord Shaughnessy, head of the
Canadian Pacific Railway, has been
indulging in predictions. He says
there are people residing in the Do-
minion who will see its present popu-
lation trebled. His only qualifica-
tion is: "If we perform our duty."
By this he means, not only valor in
the war, but provision in inducing
migration to Canada and in provid-
ing the newcomers and the return-
ing soldiers with homesteads. Testi-
mony just given before the Royal
Commission in Canada, shows that
past experience with "aid" migration
has had its educational effect. The
emphasis, hereafter, will be on
settlement in groups, and less on
the isolated pioneer. Lord Shaugh-
nessy also heartily favors more scru-
tiny at the port of migration.
—Christian Science Monitor.

Pointed Paragraphs

Carranza might make the idea of
lending him money more popular if
he had shown more ability to safe-
guard United States investments al-
ready made in Mexico.—Washington
Star.

Carranza is such a sensitive man
that when a Mexican bank refused
to loan him all its assets, he con-
fiscates the bank, simply to avoid
any trouble over the matter.—Bos-
ton Advertiser.

It is not so much a question
where this or that European
monarch will eat his Christ-
mas dinner. Will he eat it stand-
ing?—Toledo Globe.

German farmers are reported to
be afraid of the new German war
loan. But should hesitate to buy
his country's bonds as long as he
can buy them on credit.—Dallas
News.

The hopeful ones who expected
Taft and Roosevelt to fall on each
other's necks with a wild, strenuous
embrace are now asking their mon-
ey back at the box office.—Chicago

AUSTRIANS

MAKE USE OF PAPER AS SUBSTITUTE FOR COTTON FROM AMERICA.

Clothing Made From Paper Treated Chemically to Make it Waterproof—Use Paper Yarn.

(ASSOCIATED PRESS TELEGRAM)
Vienna, Oct. 7.—(Via London, Oct. 10.)—Paper in the place of cotton has proved of extraordinary value in solving one of Austria-Hungary's greatest economic problems, according to Arthur Kuffler, president of the War Association of Cotton Spinners, which is the government organization controlling cotton consumption. Herr Kuffler explained today to the correspondent of the Associated Press how Austria-Hungary has met the situation caused by the cutting off of American cotton through the British blockade.

"The central powers could use more than a million bales of cotton right now," he said, "but we are able to get along without it if we must. We are getting from 5000 to 10,000 bales a month from Turkey. Before the outbreak of the war this amount was much greater but it has shown a decrease recently owing to the deportation of Armenians, who are the principal cotton planters in Asia Minor."

Herr Kuffler then showed the correspondent a vast assortment of fabrics made from paper, which he said, was taking the place of cotton. The articles ranged from flour bags, holding 200 pounds, to twine. Other textiles were manufactured from a mixture of paper yarn as warp and cotton or wool as filling. They ranged from coarse white goods to a fairly fine cloth. These paper fabrics, after being woven, are treated chemically to make them impervious to water and more durable and pliable. Herr Kuffler said that the industry was just starting and that the products were constantly improving.

"There is no telling," he said, "what paper cloth may lead to yet. When we first started, the products were indifferent but since then they have bettered. I think that the innovation will affect cotton growers for all time because it is unlikely that we will return to using cotton for purposes where paper cloth is better suited owing to its cheapness. In this extent cotton growers all over the world will be damaged."

Another substitute for cotton has been found in the common nettle. This weed has been converted into fabrics of high quality, approaching the nature of linen, and, according to Kuffler, superior to the best cotton because the nettle fiber is longer and tougher though little thicker than high grade cotton. In processes for reconvertng rag into new goods have been so perfected by the exigencies of the war that this also threatens to affect cotton planters.

"The war has taught us," said Kuffler, "not only to look for cotton substitutes, but to economize, and the result is that it is unlikely that we will return to our former consumption of American cotton for several years after the war. There are also other factors responsible for this, among them being exchange questions."

HOMER

Preaching at the M. E. church next Sunday at 10:30 a. m. Sunday school, 9:30; prayer meeting Wednesday evening at 7:30.

Preaching services at the Baptist church, Sunday evening at 7:30; Sunday school at 9:30 a. m.; prayer meeting Tuesday evening at 7:30.

Sheep: receipts 200; steady. 2.00@2.50. Lambs: slow 6.00@10.00.

Chicago Grain.
(ASSOCIATED PRESS TELEGRAM)
Chicago, Oct. 10.—Higher cash quotations and the advance of the price of wheat in Argentina had bullish effect on wheat today. Opening prices, which ranged from 1.15 to 1.18 1/2, were followed by a moderate reaction but then a fresh advance hardened with wheat. For the most part however, demand was of a scattered sort. After opening at 1.15 1/2, wheat advanced to 1.16 1/2, and then to 1.17 1/2, and finally to 1.18 1/2. Oats derived strength from other cereals. As in the case of corn, the market failed to widen out. Despite weakness in the hog market, provisions had upward slant. The reason appeared to be higher prices at Liverpool.

Chicago Live Stock.
(ASSOCIATED PRESS TELEGRAM)
Chicago, Oct. 10.—Hogs: receipts 20,000; active. Early decline of 5 to 10 cents under yesterday's average regained. Bulk 2.25@2.50. High 2.60@2.80. Mixed 2.40@2.60. Heavy 2.60@2.80. Roughs 2.00@2.25. Pigs 2.00@2.25. Native 2.00@2.25. Foreign 1.80@2.00. Western steers 6.15@6.40. Stockers and feeders 4.75@5.00. Cows and heifers 3.50@3.75. Calves 5.12@5.25.
Sheep: receipts 20,000. Strong. Withers 4.00@4.25. Lambs 4.50@4.75.

Chicago Provisions.
(ASSOCIATED PRESS TELEGRAM)
Chicago, Oct. 10.—Produce unchanged. Eggs: receipts 5,000 cases. Unchanged. Potatoes: receipts 10 cars. Unchanged. Buttr: alive unchanged.

Wall Street.
(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 10.—Further substantial recoveries from low levels of the preceding session were registered at today's opening. All branches of the list shared in the rise with gains most marked, however, in industrial and equipment stocks such as American Sugar, Hides, Leather preferred, Republic Steel, Baldwin Locomotive, General Electric, Studebaker and Airplane. There was unusual activity and strength in gas stocks, notably Peoples

Frank's Hatters, New Gridiron Team is Formed

Taken over by Frank Deininger and will be known this season as Frank's Hatters. The team is open for games with any 150 pound football aggregation in the state. Mr. Deininger will have his team out for practice this week and expects to schedule a game for next Sunday.

WITNESSED THE BOSTON RED SOX WIN BOTH GAMES

Mr. and Mrs. Robert A. White of West Church street, who are taking the world series baseball games in Boston and Brooklyn, have written friends here from the former city that the team is having a hard time and that nothing else is heard or talked about on the streets, or in hotels or theatres. Everybody was looking for bets on the team, and many of money were placed each day. The New York people attended Ziegfeld's "Follies" in Boston and after the New York after yesterday's game and will witness the Brooklyn game today and after taking in the big week and expects to schedule a game to Newark the latter part of the week.

"RUBE" BERNSTEIN WILL BE HERE WITH "FOLLIES"

Charles A. Koster, business manager of the "Follies of Pleasure" which will be the attraction at the Auditorium in this city next Monday evening, was a visitor in the city last evening and today, Sunday, he was in the city. Manager Geo. M. Fongers of the Auditorium. The owner of the "Follies" is Rube Bernstein, former first baseman of the New York Giants, and one of the best versed men on baseball in the country. He picked the Boston Red Sox to return this week and is looking for a return who are quartered in Columbus for the winter.

WONT DENY USE OF HARBORS TO SUBMARINES.

Washington, Oct. 10.—The United States has refused to accept the contention of the entente allies urging that neutrals deny the use of their harbors to all submarines, whether merchantmen or warships, whether of the United States or Germany, announced today.

General view of the two big houses that cover not so many square feet, but acres.

The entire family takes a pride in the new houses. This bed of can'ts and colous was Mrs. Weiant's suggestion.

An Interesting Peep in the Weiant Gardens, Near Newark

NEWARK people generally, realize that there is a monster garden under glass east of the city, operated by W. S. Weiant & Son, but not all of them, by any means, know that it is one of the largest commercial greenhouses in the country. It is regarded by experts as one of the most practical commercial plants of its kind to be found anywhere.

And it is of recent origin, too, as compared with some of the older Licking county institutions. It is an institution where specializing has been carried on to the nth power. Three articles of commerce are produced, lettuce, cucumbers and tomatoes. A fourth might be termed a by-product, although it figures largely in the success of the concern. This fourth item is loyalty—loyalty on the part of the employees. These men are provided with homes on the Weiant farm and their loyal interest in the welfare of the establishment is one of the factors of its success.

This home industry was founded eleven years ago, and today, with the co-operation of the best employes in the business, with careful attention paid to details, ranks not only among the largest in point of size in the country, but has a reputation for the best products grown. In fact, the quality of its products has set a standard for the industry throughout the country.

During the busy shipping season you will see its familiar cucumber, tomato and lettuce labels in fifteen different states and Canada. Newark, Ohio, is not inconspicuously featured on each label.

The most unique method of unloading their coal has just been placed in operation. This consists of a coal tippie on the B. & O. railroad, upon which a car is dumped. The coal is automatically checked, so that small cars underneath may be filled. The cars are transported by a gasoline locomotive over a one-fourth mile track passing through a subway beneath the

Ohio Electric tracks, and thence up an elevated track above their boiler room, where cars are again automatically dumped. This operation requires the services of one man for five hours to unload a 50-ton car, whereas before it required the services of five men and a team one day.

Their advertising is taken care of by the Tuthill Advertising Co., New York City, which concern is to extensive work for them in the near future.

Its latest addition of most modern houses, of which they are justly proud, are the Lord & Burnham construction. They are three in number, one 25x200, and two 75x540 feet each.

Just to give an idea of the amount of material in such houses. The framework and glass alone weigh more than 310 tons. Fifteen miles of sash-bars and fourteen miles of pulleys, rafters, posts, etc., were used in their construction.

In the vacuum heating system, there are ten miles of pipes, ten tons of pipe fittings, 4000 roller spools, and a carload of asbestos pipe covering.

There is a mile of Skinner irrigation lines and an automatic steam pump with a capacity of a quarter million gallons every ten hours.

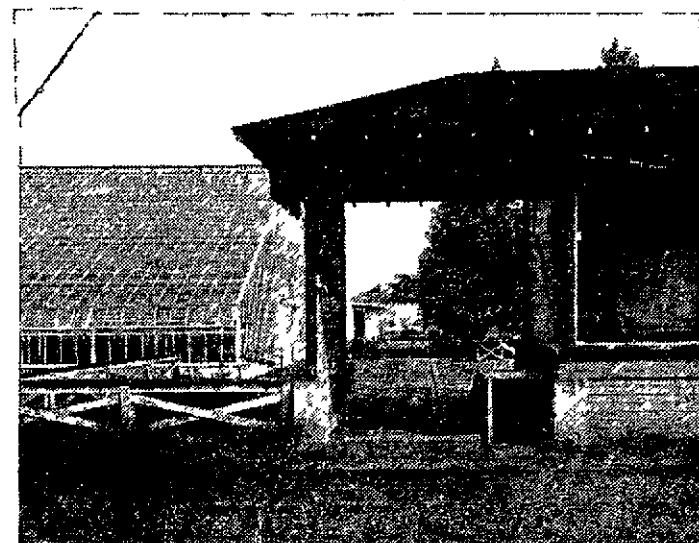

There were fifty miles of wire used for the cucumber trellises and four carloads of cement for the walks and walls. The builders, Lord & Burnham, in commenting on the plant, say:

"We believe that this range is one of the finest commercial layouts we have been privileged to erect. Structurally it embodies all that is best in our wide-spaced iron frame construction."

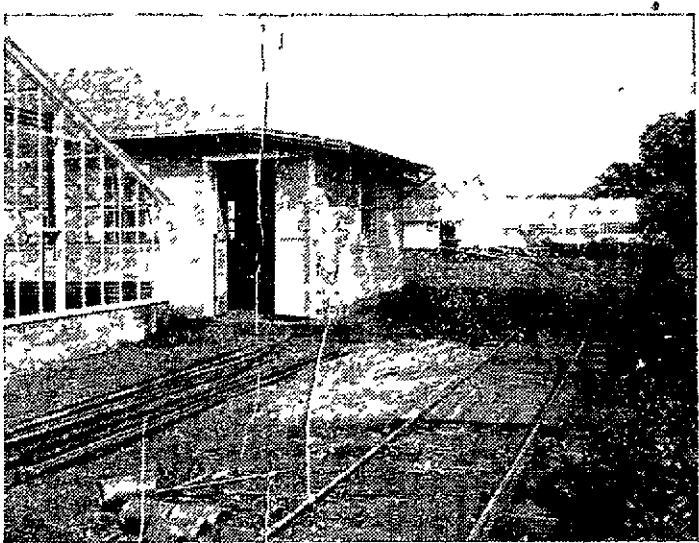

"From a business paying point of view, it is conspicuously free from any superfluous features, such as are likely to be found in layouts where capital is plenty."

"It is a clean-cut, thoroughly practical proposition from start to finish."

And Lord & Burnham ought to know, for they have constructed most of the larger greenhouses and conservatories in the country.

A glimpse of the shipping station, in its economical location.

The Packing Sheds and Shipping Station are connected by a standard gauge private railroad.

In a commanding position on top of a hill, overlooking the acres of glass, is the Weiant's residence.

From the East came Mr. Charles Porter, their superintendent. This is the cosy home furnished him.

25 Years Ago

(From Advocate, Oct. 10, 1891.)

Burglars visited the grocery store of Mr. John Wiegell, corner Fifth and West Main, streets last night. Cigars and money were taken.

A pleasant party was given at the home of Mrs. Anna Klett on Cedar street, Thursday, in honor of her sister, Miss Grace Klett, of Hartford.

Manager Edmiston went to Columbus last evening where he witnessed the production of "A High Roller," at the Metropolitan opera house.

J. J. Huston and wife, Joseph Avery, B. S. Marshall and wife and Orange Barrett, left yesterday for Reading, Pa., to attend the national encampment of the Union Veteran Legion.

15 YEARS AGO TODAY.

(From Advocate, Oct. 10, 1901.)

One of the most happy events of this week was a dancing party given by Mr. and Mrs. E. C. Wright Tuesday evening, Oct. 8, in celebration of their tenth wedding anniversary. About 75 guests bearing gifts of tinware offered their congratulations.

Mrs. James Moore and Mrs. Henry Sachs left today for Buffalo.

There are two well defined cases of smallpox in this city and a third case is under quarantine.

Miss L. Jones of North Fourth street left today for Troy, N. Y., where she will visit friends for several weeks.

Among those in attendance at the

Coshocton fair today were Mr. and Mrs. John Chilcote, Charles Courtier, Clem Kellar, Miss Daisy Cherry and Miss Alice Wylie.

Mrs. Louisa Bournier died yesterday afternoon at her home in North Fourth street.

The World War a Year Ago Today—Oct. 10.

German forces were repulsed on the western front and gained ground in Galicia.

Bulgarian troops attacked Servians north of Nish, on Servian soil.

Business Instinct.

Mary's mother found her busily engaged in cutting up potatoes. "Why, Mary," said the astonished mother, "what are you doing that for?"

Pausing a moment in her task, Mary looked up and replied, "I heard the man over at the store say that there was money in potatoes this year, mamma, and I was just looking for some."—New York Times.

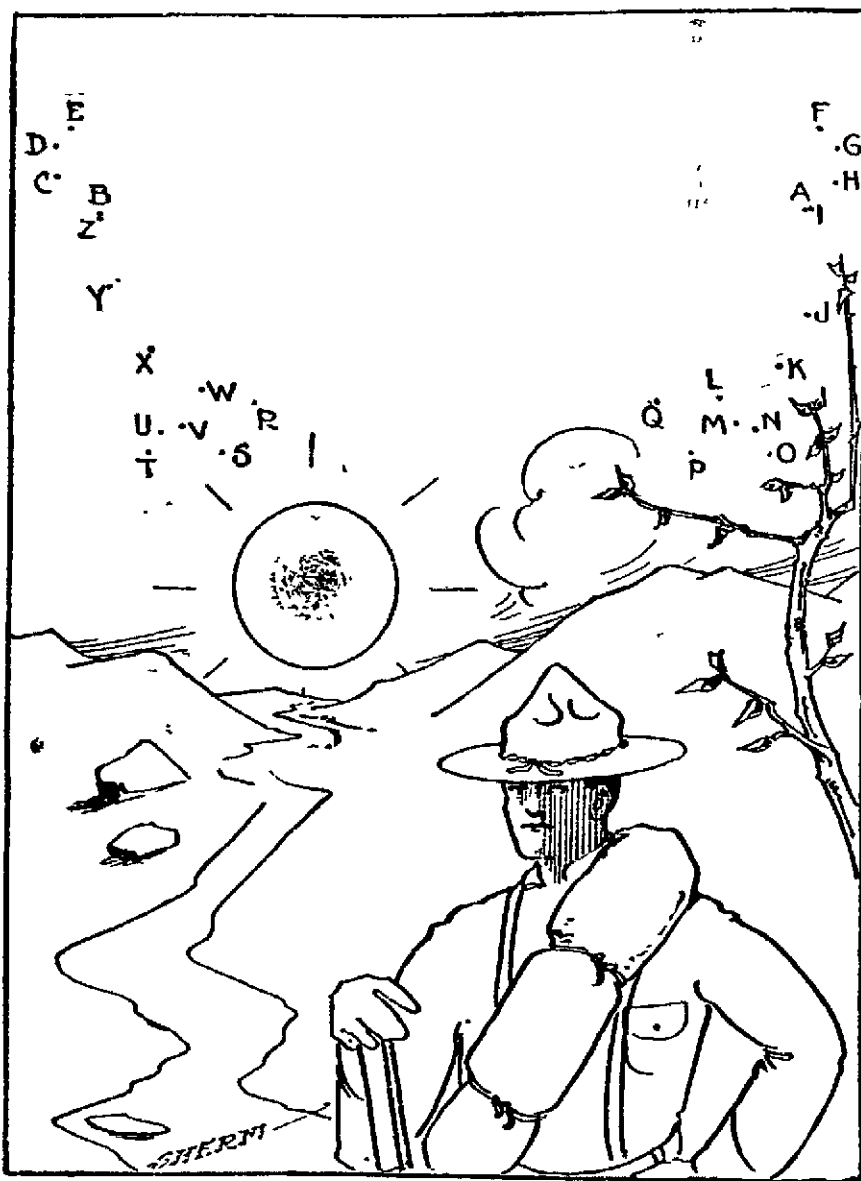

High Tribute.

"Don't you think Miss Sweetthing's complexion is perfectly lovely?" inquired the infatuated youth.

"I do, indeed," replied the cynical young woman. "In fact, I have told her several times that that shade harmonizes best with the present color of her hair."—Richmond Times-Dispatch.

THE ALPHABETICAL DOTS

By CLIFFORD LEON SHERMAN

"I should think that the soldiers would be rather hot and uncomfortable after they come back from those long hikes over the desert," said Tommy one evening.

"They certainly are," replied his father. "They are so tanned that they don't blister any more but they look rather worn as they come in all covered with alkali dust, with the perspiration streaming down their faces."

"I should think they would want a drink," said Tommy.

"They do," said his father. "and the next thing they would like to see would be —"

(To complete the picture draw a straight line from the dot marked A to the dot marked B and so on through the alphabet.)

(Copyright, 1916, by John N. Wheeler, Inc.)

Genius and Mediocrity.

Corneille did not speak correctly the language of which he was such a master. Descartes was silent in mixed society. Themistocles, when asked to play on a lute, said, "I cannot fiddle, but I can make a little village into a great city." Addison was unable to converse in company. Vergil was heavy colloquially. La Fontaine was coarse and stupid when surrounded by men. The Countess of Pembroke had been often heard to say of Chaucer that his silence was more agreeable to her than his conversation. Socrates, celebrated for his written orations, was so timid that he never ventured to speak in public. Hence it has been remarked, "Mediocrity can talk; it is for genius to observe."

TO HELP WOMEN.

After terrible suffering, numberless women have used Lydia E. Pinkham's Vegetable Compound and recovered from ailments peculiar to their sex. Many of these, who cannot bear that other women should suffer as they did without knowing what to do, have written letters telling their experience to be published to the world. These honest, helpful stories are constantly appearing in the newspapers. Read them, aiding women, they are written with no motive but your good.—Advertisement.

It may be true that the earth was made for man, but don't jump to the conclusion that you are the man.

The people who take up physical culture are not always the ones who carry other people's burdens.

COMPLEXION FRESH AS A DAISY—NOT A WRINKLE.

In sight—Remarkable discovery of skin osmosis quickly enables women with sunken cheeks, wrinkles and marks of age again to become most beautiful youthful and charming.

(By Mile Marie, France's Great Prize Beauty.)

It's wonderful to look beautiful and youthful. The Countess de Chevalne, who at seventy years of age possesses a marvellously soft, smooth, velvet-like skin and an almost girl-like complexion without a wrinkle in sight, told the writer personally in Paris that she owed it all to the discovery of skin osmosis. With this marvelous discovery every complexion in French can

be banished in three minutes in many instances, and you can awaken in the morning with a beautiful natural rose colored complexion fresh as a daisy. I have known dozens of hollow-cheeked, wrinkled, aged-looking women who had given up hope of ever looking beautiful and youthful again, to "Come back" and again become most beautiful youthful and fascinating in from two to three weeks' time by this wonderful simple method.

No matter what your age or what you have tried unsuccessfully, skin osmosis will positively bring you new

beauty and youth. Merely wash your face in warm water at night and rub in a teaspoonful of two of any good pure roseated cream which you can obtain from your druggist. In the morning wash the face with cold water, and rub in more cream.

In three weeks or less watch the magic transformation. See how the old hardened, coarse, rough skin turns into new, fresh, soft, youthful looking skin almost before your very eyes, all due to simple skin osmosis produced solely by warm water and roseated cream. But be sure to use only pure roseated cream as it is an entirely different thing from ordinary face creams and must not be confounded with them.

I personally prefer Creme Tokalon (Registered), but any good brand will do. If you have wrinkles get a box of Japanese Ice Pencils and use them in connection with the cream and you get a quick action on the deepest wrinkles, no matter of how long standing, in one night's time and awaken on the morrow to witness most astonishing results.

I personally guarantee success in every case in any of my newspaper articles which I write on subjects relating to beauty, or I will refund the amount paid for any products which I recommend, provided you take your dealer's receipt at the time you make your purchase. My American address is Simone Marie, 29 West 22nd street, New York.

12 Automatic Time-Savings per letter with the new

Remington Self Starter

THE CIRCLES SHOW THE 12 FLYING STARTS

THIS Remington invention eliminates whole groups of slow hand motions. It gives your typist an average of 12 flying starts on every letter that leaves your office.

See how:

She slips your letterhead in the Remington paper-roll. She presses a column selector "self-starting" key. The carriage automatically toes the mark just where the typing of the date should be started. TIME SAVED.

She writes the name. Then she presses another self-starting key. Instead of "inching" along, the carriage darts to exact position for "street and number." TIME SAVED.

Another key speeds the carriage to position for "city and state." No slow hand spacing. TIME SAVED.

Down the page it goes, automatically fixing the carriage in position for paragraphs, "yours truly" lines, name and address on envelopes, as precisely as though measured by scale—and infinitely quicker.

TIME SAVED TIME SAVED TIME SAVED

The new "Self Starter" insures a neat uniformity in all letters that leave your office. It gives your typist more time to type. She doesn't waste time doing things her machine should do for her. She doesn't have to look on and off her notes. TIME SAVED.

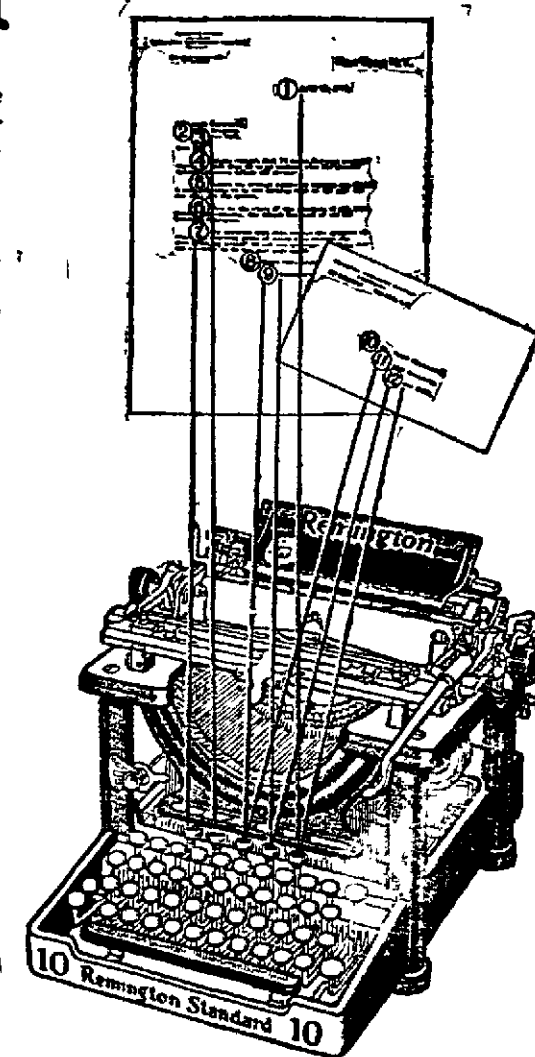

These "self starting" keys come only on Remingtons. They are a built-in part of all new Remington No 10 machines.

No added cost.

They save enough time to pay for the machine. Come to our office and ask for a demonstration.

FOR THOSE WHO WISH TO TEACH

Questions Put to Applicants For County Certificates.

EXAMINATION HELD OCT. 7.

Prepared by the State Superintendent of Public Instruction to Test the Mental Qualifications of Those Who Seek Positions as Teachers in the Public Schools.

Following is the list of questions as prepared under direction of the state superintendent of public instruction and submitted at the county examination for teachers Oct. 7 for elementary school certificates:

GRAMMAR.

1. Give a list of ten verbs that give you trouble, in some of their forms, either in your use of English or in your teaching.
2. What methods do you employ in your school to inculcate the habit of correct English?
3. What methods do you employ in the way of improving your own English?
4. The superintendent in a certain school in Ohio is noted for his use of incorrect English. What would you do if you were teaching in his school?
5. Write a paragraph using both adjective and adverbial elements of all three classes.
6. What book of the Reading Circle has been most helpful to you in your teaching of English? Explain.
7. How much or how little formal grammar do you advocate? Why?
8. What do you do with or for a pupil who says "I seen", "He might have came" and "I aint saw him"?
9. What methods do you employ to enlarge your vocabulary?
10. Name five grammars in the order of your preference.

ARITHMETIC.

(Answer 8.)

1. Construct a problem illustrating longitude and time.
2. One ten-acre field is circular and another ten-acre field is square. What is the distance around each field in rods?
3. Construct a problem that illustrates some principle of geometry.
4. One ball of putty is one inch in diameter and another is two inches in diameter. How do their volumes compare?
5. Construct a problem that illustrates one of the applications of percentage.
6. Construct a problem having to do with a granary or a silo, and solve the problem you construct.
7. Construct and solve a problem illustrating the subject of stocks and bonds.
8. If a pupil says he does not understand the rule for division of decimals, how do you proceed?
9. Construct and solve a problem in compound proportion.
10. Construct and solve a problem illustrating the reduction of denominate numbers.

THEORY AND PRACTICE.

(Choose 8.)

1. Why is the language work in the school of supreme importance?
2. State the general aims of the language work in the school; also state the particular aims of this work in some one grade.
3. Discuss the importance of storytelling in schools of any grade.
4. Show the importance of following up in any one year the work of the preceding year, using language work as an illustration.
5. What view of the recitation period should the pupils have?
6. Show the relation between bad physical surroundings and school room offenses.
7. How may a teacher's recreations and activities aside from school work increase his worth as a teacher?
8. State three advantages of supervision. State a disadvantage if you have discovered one.
9. What means may a teacher employ of keeping parents interested and informed? If a pupil does poorly in lessons, what, if anything, should be said to the parent about it?
10. What injury results to a pupil if he cheats? If he forms a habit of getting help from other students? Mention some things that help to avoid or remedy such action.

READING.

The examination in reading is oral. The examiner will conduct the examination following any plan desired.

HISTORY.

1. Name five events in the War of the Revolution and five of the Civil War that you regard as turning points.
2. Quote from the Declaration of Independence, the Constitution, and the Gettysburg speech.
3. Name five of your favorite Presidents and give reasons.
4. Name five of your favorite American statesmen and give reasons.
5. Name five great American inventions that have made the conditions of life more agreeable.
6. Name ten books on American History that you would select for your school library.
7. Name five American poems that you like best and give a brief sketch of their authors.
8. Name five great American authors and give titles of some of their masterpieces.

WRITING.

1. Discuss the use of shading in writing.
2. How do you secure the proper slant?
3. Give four or five exercises to develop movement, and explain just how they are effective in that regard.
- 4-6. Your penmanship will be judged by the copy you make of this selection: "Much depends upon when and where you read a book. In the five or six in-

patient minutes, before the dinner is quite ready, who would think of taking up the Fairy Queen for a stop-gap, or a volume of Bishop Andrews' sermons?

Milton almost requires a solemn service of music to be played before you enter upon him. But he brings his music, to which, who listens, had need bring docile thoughts, and purged ears."

—Essays of Elia.

PHYSIOLOGY.

1. What means do you employ to discover physical defects in your pupils?
2. What phases of hygiene do you emphasize in your teaching?
3. How do you generate a feeling for cleanliness in your school?
4. How and why do you keep your school room supplied with abundant fresh air?
5. What practical applications of physiology do you strive to inculcate?
6. How do you teach that table etiquette is conducive to health?
7. How do you apply your knowledge of physiology in the matter of school decorations?
8. Name some ways in which the teaching of physiology in your school functions in the community.
- 9 & 10. Write on "How to Make Ohio More Beautiful" from the standpoint of physiology.

LITERATURE.

1. Give a synopsis of the best novel you ever read.
2. Name ten of the women of Shakespeare in the order of your preference.
3. Outline the plot of one of the works of Dickens, Scott or Thackeray.
4. Name five of the greatest poems of literature in the order of your preference.
5. Tell briefly the story of one of Shakespeare's plays.
6. Give titles of ten books written by women.
7. Outline the general scope and give exact title of the book on literature for this year in the Reading Circle.
8. What reading did you do during vacation that served to enlarge your literary horizon?
9. Quote from Shakespeare, Burns, Lowell, Tennyson and Longfellow.
10. What books have you read twice or more?

GEOGRAPHY.

1. How do you explain to a pupil why his shadow is longer in winter than in summer?
2. How do you explain to your class the width of the zones?
3. Name ten rivers of the world that have historic interest and explain.
4. Name ten great geographical features of the world that you would like to visit and explain why.
5. What supplementary books on geography do you have in your school and how do you use them?
6. What phases of the geography of Ohio do you strive to have your pupils come to know?
7. What suggestions would you offer looking to an improvement in our methods of teaching geography?
8. In what specific ways do you strive to correlate geography and history?
- 9 & 10. Write on the subject "The Influence on Climate of Geographical Features and Locations."

AGRICULTURE.

1. What important improvements in farm machinery have you observed?
2. Tell some of the points at which agriculture touches chemistry and physiology.
3. Point out some of the ways by which Ohio can be made more beautiful through agriculture.
4. What appliances for the teaching of agriculture would you like to have in your school?
5. What supplementary books on agriculture would you like to have in your school library?
6. What varieties of apple, peach and cherry trees do you advise people to plant?
7. Name your favorite breeds of chickens, hogs, and cattle and give reasons.
8. Formulate at least three questions in Agriculture that you would include in an examination for teachers.
- 9 & 10. Write not fewer than two hundred words on "Agriculture and Life."

ORTHOGRAPHY.

1. Write a paragraph on some subject using correctly the comma, the semicolon, the colon, the period, the interrogation, point, the exclamation point and quotation marks.
2. Write a list of twenty words that you would think appropriate in an examination for teachers.
3. How do you proceed with a pupil who has difficulty with spelling?
4. Give ten words that you most frequently misspell.
5. Write not fewer than one hundred words stating your views on oral spelling as compared with written spelling.

HIGH SCHOOL AGRICULTURE.

1. What important improvements in farm machinery have you observed?
2. Tell some of the points at which agriculture touches chemistry and physiology.
3. Point out some of the ways by which Ohio can be made more beautiful through agriculture.
4. What appliances for the teaching of agriculture would you like to have in your school?
5. What supplementary books on agriculture would you like to have in your school library?
6. What varieties of apple, peach, and cherry trees do you advise people to plant?
7. Name your favorite breeds of chickens, hogs, and cattle and give reasons.
8. Formulate at least three questions in Agriculture that you would include in an examination for teachers.
- 9 & 10. Write not fewer than two hundred words on "Agriculture and Life."

Bread Cheap in Australia.

In Sydney, one of the largest cities in Australia, the government has made the following regulation in the price of bread: "Bread purchased at shops or bakeries, one pound loaf 2 pence (4 cents); two pound loaf, 3 1/2 pence (7 cents); delivered, 2 1/2 and 4 pence, respectively." The eight hour day is universal in Australia, and wages are higher than in America, yet Australians get the bread for about half what it costs Americans.—Pittsburgh Leader.

BROOKLYN

FIELD WAS FILLED TO CAPACITY FOR THIRD GAME OF TITLE SERIES.

New Yorkers Cross to Island By Thousands to Help Brooklyn Win First Home Game.

New York, Oct. 10.—With the battle for the premier baseball honor of the year transferred from Boston to Brooklyn today, the baseball enthusiasts of Greater New York flocked by the thousands to Ebbets field to view the world's series from a new angle. Brooklyn has sent many a strong delegation to the Polo Grounds in Harlem, home of the Giants, to witness post-season struggles in former years, but today saw a reversal of the process, with the tide of travel turned towards Flatbush, where sits the stadium occupied by the present National league champions.

In contrast with the warm haziness of the past few days, remarkable for its suitability to the great national pastime, the morning broke cool and breezy, with the promise of a day more suited to work on the gridiron than on the diamond.

The ticket holders for the games to be played on the Flatbush diamond—there were more than 20,000 of them before the rush to the grounds started—were not over-impatient to get to the playing field, and the Brooklyn traction lines were easily able to take care of their forenoon patrons. The thousands who had not been fore-banded however, together with other thousands who counted on winning out in the struggle for places in the unreserved section, provided a steady flow of traffic groundwards, to be augmented later by the throngs of possessors of reserved seats within the playing arena. And long before game time, there was every indication that the stadium at the call of play, would be filled to the limit of its 26,000 capacity.

The struggle of the day, coming after the two desperate encounters in Boston which left the Brooklyn without a victory and gave the Red Sox a commanding lead in the battle for the title, promised to be perhaps the "crucial" game of the series.

On familiar ground after the loss of two heart-breaking struggles on alien soil, the Dodgers figured in the calculations of ardent Brooklynites as likely to gather sufficient inspiration from congenial surroundings to give them the edge they lacked in the Braves' field encounters. A pair of reverses by single run margins in one of which five extra innings were required to subdue them, was not looked upon as an indication that the National leaguers were outclassed and doomed to certain defeat. Nevertheless, it was realized that today's battle might virtually decide the series, as another setback would force the Robins to the wall where a single thrust would mean their downfall. It was likely to be either the turning point of the series or a continuation of the Red Sox march to victory, and with no decided superiority in run-making power demonstrated by the American leaguers, the supporters of the Toner circuit champions were not inclined to concede anything unless, or until they were forced to do so.

Dynamiter Gets Another Sentence; Steals a Horse

Columbus, Oct. 10.—Following his plea of guilty to the charge of horse-stealing yesterday in criminal court, Alfred Strader, aged 26, was sentenced by Judge Evans to the penitentiary where he served five years for dynamiting a street car during the 1911 strike here. Strader was pardoned for this offense last May. The court recommended that he be confined seven years.

Within a month, according to his own admission, he stole a horse from Allyn Rathmell of Lockbourne.

On his release he probably will be prosecuted on a second indictment, returned by the last grand jury, which charges him with automobile stealing.

Newark Man is Vice President of 3rd Ohio Regiment

Columbus, Oct. 10.—Years ago members of the Third Ohio Volunteer Infantry decided to meet Oct. 8 each year unless that date came on Sunday. Yesterday the thirty-first meeting, which was held at Memorial hall, found only 15 of the old comrades in their places. Two whole companies were recruited in Columbus early in the sixties and were known as the old "Governor Guards."

Of the 1600 men whose names were on the roster of the regiment at different times, 47 are known to be living.

Thomas Haughey, Columbus, is the president; George Wells, Newark, vice president, and Lon McGill, Columbus, secretary and treasurer.

Denison Eleven Grows Confident; Wittenberg Next

Granville, Oct. 10.—Following its 29 to 0 defeat of Cincinnati last Saturday, Denison's football team has taken on some of the confidence that has characterized its team of former years. Wittenberg is met this week and on comparing the facts that Cincinnati and Wittenberg played a scoreless tie while Denison defeated the former, makes the week's outlook extremely rosy.

In all probability Cleary will return to the lineup this week, as his injured knee has been responding nicely to the treatment given it. Shock also will report this week, as will Jenkins. The latter was the worst hurt, having his side severely wrenched on an attempted run in the Otterbein game. With the return of Shock to his old end position, it looks as if Shover will return to half, giving the backfield its normal strength again. With the regular lineup in the Wittenberg game this Saturday the Granville team will be out to eclipse the beating handed to the Springfield institution last year. Wittenberg's chances to win are diminished by the fact that Stan Netts, who was its greatest star, will not be seen with it this year. He is now attending Princeton.

MR. P. H. HYPES

A PROMINENT SALESMAN OF COLUMBUS, OHIO

Is Strong for Tono-Nerve, The Tonic of Tonics.

Mr. Hypes made the following signed statement to the Tono-Nerve Co.:

I had been suffering from a general run down condition for a long time, due to overwork before taking Tono-Nerve. I was very nervous, at nights my nerves jerked so I could not sleep. My appetite was gone, had no desire to eat and what I did eat distressed me which made me that much worse. I read about Tono-Nerve and what it was doing for people that suffered as I did that I decided to try it, and received so much relief from the first bottle that I got a second bottle. I now feel like a new man but I am not going to stop taking Tono-Nerve until I know that I am entirely well. I can recommend Tono-Nerve to all those who suffer ill health.

The city Drug Store will refund your dollar if Tono-Nerve fails to help you as it did Mr. Hypes.—Advertisement.

GROCERS

OF OHIO OPEN 17TH ANNUAL CONVENTION AT TAYLOR HALL THIS AFTERNOON

Delegates Welcomed By Local People and Then Settle Down to Transaction of Business.

The 17th annual convention of the Ohio Retail Grocers and Meat Dealers' Association, opened this afternoon in Taylor hall, Y. M. C. A. building, for a three days session.

Delegates from all parts of the state began to arrive early this morning, but the majority will not arrive until tomorrow. Officers of the organization who arrived today, were John Ulmer, of Toledo, past state president; State President John Devenne, of Youngstown, and state secretary, E. G. Ashley. The delegates are quartered at the Warden and Sherwood hotels.

A reception committee of the local organization is meeting all trains upon their arrival, welcoming the visitors and directing them to their hotels. By tomorrow evening, state president, Devenne predicts there will be between 150 and 200 delegates and visitors in the city.

An elaborate and busy program has been arranged which promised not only to be interesting but educational to members of the association.

Wednesday's program will commence in the morning and continue till noon, when the visitors will be taken for an automobile ride, visiting all the various places of interest in the city, and then go to Mountbalders park, where there will be an ox roast.

President D. C. Metz, of the Newark Grocers' Association called the meeting to order this afternoon at 1:30 o'clock.

Rev. L. C. Sparks opened the session with invocation and an address of welcome was delivered by Mayor R. C. Bigbee. President F. L. Beggs, of the Chamber of Commerce followed Mayor Bigbee with another address of welcome.

A third address of welcome was delivered by Howard Stevens of the Newark Grocers' Association.

Past State President John Ulmer, of Toledo, on behalf of the visitors delivered the response address of welcome of the Newark men. Then followed the introduction of State President John Devenne, of Youngstown, who will preside over the convention.

Fred H. Delscamp, treasurer of the Retail Grocers of Dayton; J. R. Robinson, secretary and J. J. Deger, member of the board of trustees, representing the Gem City, are real live wires and have lost no time in taking in the sights of the city, renewing old acquaintances and forming many new ones. All are impressed with the city of which they are guests and speak in the highest terms of praise of its prosperous condition and civic surroundings.

Mr. Delscamp is active in politics in Montgomery county and has taken a leading part for a number of years in advocating the policies of the party with which he is affiliated. He is young in years, but a hustler, and it is whispered by his friends that he will not only be a candidate at the next county primaries for an important office, but that he will be elected, as his nomination is a foregone conclusion.

Sitting on a Tack.
A thing is tragic or humorous according to the point of view. The man who sits on a tack does not share the onlookers' amusement. In fact, he is not only pained at his own misfortune, but he is pained because he occasioned some one else to find a degree of pleasure in his unseemly plight.

Now, it is perfectly safe to make this positive statement in this connection—the person who witnessed the other's unfortunate encounter with the tack never deliberately sits on the same tack himself. Indeed, he is particularly cautious about sitting down anywhere soon thereafter without looking for a tack.

Nor is this an indictment of tacks. Tacks serve a very real and useful purpose in this world, but they have their place, which is not in localities where they may be sat upon.—William C. Leugel in Hoggson Magazine.

Caught Him Both Ways.
"I ask you to pay me this bill," said a tailor to a waggish debtor.

"Do you owe anybody anything?" asked the wag.

"No, sir," replied the tailor.

"Then you can afford to wait." And off he walked.

A day or two afterward the tailor called again. Our wag was not at his wits' end, so, turning to his creditor, he said:

"Are you in debt to anybody?"

"Yes, sir, I am sorry to say I am."

"Well, why don't you pay?"

"I haven't got the money," replied the tailor, with a woebegone countenance.

"That's just my case, my dear sir. I am glad to perceive that you can appreciate my position. I always respected your judgment, sir. Give me your hand, sir."—London Mail.

Don't be too smart. The fish that keeps its mouth shut doesn't get the hook.

How To Eradicate All Superfluous Hair

Advice By A Skin Specialist

The best means I have ever found for removing all signs of disfiguring growths of hair on the face, neck, arms, or hands is a new preparation called Mrs. Osgood's Wonder.

I have recommended it in thousands of cases and I know personally of its ability to banish every hair forever. It cannot injure the skin or complexion and is quite inexpensive.

You can get Mrs. Osgood's Wonder from T. J. Evans or any up-to-date druggist. Signed Money Back. Guaranteed with every package. Do not apply this treatment except where total destruction of hair is desired.

King George of England speaks several languages.

Metals and the Future.

Our ancestors did not live, work and prosper in an industrial age. They were an agrarian people, living from the earth, producing only a little more than they consumed. Metals were to them as jewels are to us. A Roman soldier retained his sword through life and transmitted it for use to his descendants. The factory system, in which the labor element is a fraction in productivity compared with what capital produces through machinery, is less than 100 years old. The United States consumes today about sixteen pounds of copper per capita per annum, while in the entire continent of Asia the consumption of copper is only a fraction of a pound per capita. This is because Asia is not an industrial country. It is in the position that the whole world was in a thousand years ago, and if Asia grows industrially the demand for copper and other metals will be such as to tax even the present resources of the world.—William L. Saunders in Engineering Magazine.

Our Growing Country.

We grow in these United States of ours at the rate of 4,433 folks a day, says the Country Gentleman. Think of it, ye descendants of the Mayflower pilgrims—enough new Americans every day to have crowded the passenger list of an armada of Mayflowers! And think of it also, ye raisers of dairy cattle and ye grovers of foodstuffs—every week brings more than 30,000 new mouths to feed! A few years hence our growth will be at the rate of 10,000 a day. It will be as if little showers of hamlets and villages rained down constantly from the sky. These newcomers must all be fed and clothed. The farmer is the producer of the raw materials. He must follow closely our growth, speculate on it, prepare for it by progressive measures, keep abreast of all the live things that are doing. If he does not he will be left at the post.

Macaulay's Fifth Volume.

Macaulay lived to publish only four volumes of his "History of England," coming down to 1688. But after his death his sister prepared from his notes a fifth volume, carrying forward the history to the death of William III. This volume is included in all the later editions of Macaulay's "History of England." Macaulay's sister was Mrs. Trevelyan, the mother of Sir George Otto Trevelyan, who has written a history of the American Revolution. She was greatly devoted to her brother, as he was devoted to her. She alone was able to decipher his handwriting and copied the manuscript of his four volumes for the press. Consequently she was the best equipped person to prepare the supplementary volume.

Judicial Rebuke.

It is said of Chief Justice Tilghman of Pennsylvania that he had a great regard for a dignified administration of justice, "and the only time," writes David Paul Brown, "that we ever observed him to be disconcerted upon the bench was upon one occasion when, the business of the day having terminated, his associates arose suddenly and were walking off without a formal adjournment, when, turning to them, with his usual modesty, but with some evidence of mortification, he said, "Gentlemen, shall we adjourn, run away or resign?"—Case and Comment.

Porto Rico's Sarsaparilla.

Sarsaparilla grows all over the island of Porto Rico. It is in common use, and "libaros" peddling it in small bundles are to be seen constantly. It is used all over the island for medicinal purposes, brewed in the form of various teas and other decoctions and also steeped in rum.

Tilfish.

Tilfish are known scientifically as chameleons, so dubbed after the African lizard which they resemble. They are handsomely colored, marked with yellow spots and crested. Some live almost at the surface, but they usually are found in depths of sixty to 250 fathoms.

Navesink Light.

The electric light at Navesink, on the highlands just outside of New York harbor, is the most powerful in the United States. This light shows each five seconds a flash of one-tenth second duration, estimated at 25,000,000 candle power.

PRACTICAL HEALTH HINT.

Milk in the Home.

Good milk is a health producer. Bad milk makes stomach trouble and breeds disease.

The three "Cs" for the proper care of milk in the home, according to the dairy specialists of the United States department of agriculture, are:

Keep milk clean, cold, covered!

Milk is a highly perishable food, and the length of time it will remain sweet and safe, especially for children, depends on the specialists say, almost entirely upon the constant care it receives from cow to consumer.

Milk passes through three agencies—the producer, the dealer and the consumer. If the first two have done their part, clean, safe milk will be delivered, thoroughly chilled, to the consumer. The consumer's responsibility begins the moment the milk is delivered at his door—sten.

King George of England speaks several languages.

WEDNESDAY

Savings

Every Wednesday More and more women are learning that for real economy the place to trade is here. Those that come once, come again and pass the word to their neighbors. It is simply a matter of selling good, clean merchandise at prices less than the other stores can afford to sell it. That is just what we are doing. There is scarcely any article but what is priced for less. Come in tomorrow and see for yourself.

THE MAZEY STORE

Don't Fail To See The Special Display of Fine Imported Curtains

Which we are exhibiting this week. The display in our window is only a small part of the many beautiful styles here. You will see handsome PURE LINEN ANTIQUES, PRINCESS-ARABIAN and NOVELTY CURTAINS. These curtains are shown in white, ivory and Arabian colors, and you will take great pleasure in seeing this beautiful work, which is all done by hand, and especially in the antique curtains, which are made of pure Irish linen, showing many dainty designs in hand drawn work, lace and embroidery designs, finished with beautiful lace edges to correspond with the work throughout the curtain. The display is all week. Prices \$10.00 to \$30.00 Pr.

HANDSOME CURTAINS \$5.00 PAIR.

You will find some beautiful curtains at this price. Silk finished etamines and marquisettes with heavy insertions and edge to match in both lace and embroidery. Brussels nets, tambour nets and many striking effects in novelty curtains.

THE PRETTY CURTAINS MARKED 50c PAIR.

Will make very attractive curtains for bedrooms. White swisses with tucked borders, finished with wide lace edges, others plain with wide hemstitched edge, and some neat patterns in lace curtains.

LACES OF RARE BEAUTY WILL BE FOUND IN OUR DISPLAY OF FINE FRENCH LACES.

Rarely have designers fashioned such exquisite and handsome laces as appear this season. We invite your inspection of these beautiful and choice pieces, so you can appreciate their beauty. The silver and gold effects, so much in demand are shown embroidered on beautiful silk nets, in the wide skirt flouncings and bands to match. Others show dainty colors such as pink, blue, yellow and green, woven throughout the silver and gold designs. Black silk nets embroidered in gold, white silk nets with heavy silver edge, fine thread, large mesh flouncings with handsome Venice edge. THESE ARE ONLY A FEW of the beautiful laces to be seen this week. Let us show them all to you.

—YOU WILL ENJOY SEEING THESE BEAUTIFUL MATERIALS—

W. H. Mazez Company

Poles Ready For Power Line From Newark to Knox Co.

Mt. Vernon, Oct. 10.—The Ohio Light & Power Co. has received here and at Mt. Vernon large shipments of poles, which will be used in the construction of a line between the two cities, which will connect the Newark and Mt. Vernon power plants.

When the line is completed an accident at either the Newark or the Mt. Vernon plant will not affect the consumers in either city, as indicators instantly register the fact when the power is shut off in the other plant. The shifting of a lever throws the current from the one plant to the consumers of the other.

It is said that eventually a large circle of plants owned by this company will be connected. It is the intention, it is stated, to connect the Mt. Vernon and Fostoria plants next.

VANATTA R. F. D. 1

Mrs. Marinda Preston and son, Walter, visited Mr. and Mrs. G. W. Specht, last Sunday.

COUNTY FAIR MAN DIES.

Urbana, Oct. 10.—Charles H. Gannon, aged 80, died here yesterday after a short illness. He was one of the best-known men in Ohio in county fair circles, having been president of Champaign County Fair Association for years.

For 16 years he was mayor of Urbana, prior to 1898.

ASTHMA

Simple Harmless Remedy Brings Quick Relief.

Many cases of immediate relief and rapid recovery from Bronchial Asthma of long standing and other diseases of throat and lungs are being credited to a discovery made by Dr. Eugene Howard of Worcester, Mass. Dr. Howard's prescription, which is totally different from all usual methods of treatment, for these afflictions, is called Oxidaze and comes in the form of a tablet which the patient allows to dissolve slowly in the mouth. Its curative, healing, juice with the saliva and enter every crevice of the irritated bronchial membranes, release the muscular constriction of the bronchial tubes, open up the air passages and regulate the spasmodic lung action. These tablets, though pleasant to the taste, are so powerful and rapid in their action that many users who for years were obliged to sit up in bed gasping for breath and unable to sleep report that they now put a single Oxidaze tablet in their mouth when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep. W. A. Erman, Evans Drug Store and many other local druggists who handle Oxidaze tablets sell it on the positive guarantee of money back if it does not give immediate relief.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

An Unfailing Way to Banish Hairs

(Beauty Notes.)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.

(Adv.)

The first lighthouse on this continent was built in 1715, at the entrance of Boston harbor.

Rabbit fur is said to be supplanting wool in felt hat making in Australia.

Hope shoots a man upward, but disappointment is a safety device that lets him down easy.

Opportunity is apt to dodge the man who is satisfied to take things as they come.

THE NEWEST STYLES FROM NEW YORK EVERY DAY

THAT'S WHY THIS STORE MAINTAINS ITS LEADERSHIP

Not a day passes but what we receive two big shipments of express packages, direct from New York—the Style Centre of the world. This keeps us in touch with the newest style innovations, and places before you a selection that is but a day behind the Fifth Avenue Fashion Promenade.

The woman who buys her garments here has the new things first. This is an established fact that we have demonstrated season after season.

Why take a chance? Come direct to style headquarters.

FEATURING FUR TRIMMED PLUSH COATS AT \$15.95—\$18.95—\$22.95

Of course, we are showing many higher priced models, but the garments, at above mentioned prices, are such extremely good values that we desire to lay particular stress upon them. Tailored from genuine Seal Plush, sponged and steamed to avoid spotting; made in medium or long lengths with full flare or ripple backs; large cape collars convertible into three different styles and fur trimming most generously used. These garments have advanced \$4.00 to \$6.00 since we purchased them—you save the difference if you make your selection at once.

Don't you think you had better come and see them?

Other styles, in all materials, \$10.00 to \$70.00.

See The New Suits

At \$15, \$17.50, \$18.95

Without a doubt, the best values in all Newark. Dozens of styles, tailored from Wool Poplin, Gabardine, Pretty Cheviots, Men's Wear Serge and neat Mixtures; many fur trimmed—something unusual for garments selling at these prices. The tailoring is faultless; materials are steamed and shrunk; all buttons reinforced; linings guaranteed for two seasons wear and all colors warranted fast. The hundreds of suits we have sold this season speak volumes as to the merits of this showing. If you are unacquainted with these splendid values, its time you were coming here and meeting them face to face. They'll please you immensely, we know.

MANY STYLES—\$22.50 TO \$50.00

Exclusive models—just one of a kind and size. Tailored from rich Broadcloths, handsome Wool Velours, Fine Weave Poplins and neat Velour Cheeks. You must really see them to appreciate their excellent value and wonderful beauty.

ANOTHER SHIPMENT OF PRETTY DRESSES

It's been impossible for us to keep these pretty dresses in stock, but another shipment arrived yesterday—they'll only last several days, though. The most wanted styles are those tailored from French Serge, in the new plaited models. This shipment contained four clever models in Green, Brown, Copen, Black and Navy, also the famous "School-maid" Peter Thompson dresses. We advise an early selection.

\$7.95 to \$12.95

CHILDREN'S COATS IN ALL STYLES AND AGES

Mothers are again placing their confidence in this store, for they know our children's garments are not to be equalled at the moderate prices we ask. Our showing of winter coats is on a greater scale than ever before. Every new fabric is here, in a wonderful range of styles—for baby, the little toddling tot, or the little miss of more dignified years. Prices are exceptionally moderate for qualities offered.

\$1.98 to \$15.00

Sweaters in All Styles

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

PATTON FOR SHERIFF.

R. L. PATTON

Candidate for Sheriff on the Democratic ticket solicits the influence and vote of every man in Licking county at the election on November 11th. "A Square Deal for Everyone" is Mr. Patton's motto.

GROCERS AND MEAT DEALERS BANQUET VISITING DELEGATES.

The Grocers and Meat Dealers Association respectfully ask every grocer and those closely connected with the business, such as wholesale grocers, commission men, millers and so forth to close their places of business on Wednesday afternoon, October 11th, to attend the ox roast and banquet given to the delegates and visiting friends. We expect every grocer and his wife at this banquet. Good music, toasts and speaking that every one interested in the business should hear.

All delegates, visiting friends and grocers will be provided with tickets for this occasion. Tickets not transferable.

By Order of Committee.

Readers' Viewpoint

Can It Be T. R.?

Editor of the Advocate: When President Wilson in his speech at Shadow Lawn last Saturday spoke of "the only articulate voice" among Republican leaders whom do you suppose he was driving at? Did he mean anybody in Newark or over in Columbus, or in any part of Ohio? He surely did not mean Senator Harding, for his voice is too smooth and mellifluous to be "articulate" in anything except a high tariff and ship subsidies. He did not mean Myron T. Herrick, for his voice is "articulate" only on the tariff and the expenditure of big money to purchase a seat in the United States Senate. He did not mean Governor Willis, for his voice is too big and loud to be superlatively "articulate." He did mean Harry Dabberty; for his voice has been decidedly in "articulate" ever since the primary election. He did not mean Congressman Fess, for his voice has been only semi-"articulate" ever since his speech and vote against

the eight-hour law. He did not mean Lieut.-Gov. Arnold, for "Jack's" voice has never been considered overmuch "articulate" has it? He did not mean either Arthur L. Garfield or James E. Garfield, for their voices have been scarcely "articulate" since the campaigns of 1912 and 1914. He did not even mean Charles E. Hughes, for Mr. Hughes' voice is clearly "articulate" only in the revelation of his own self-conceit and self-sufficiency—shall I also say his untidiness—for the Presidency of the United States.

Where, O where,
